

# Fructose lichen cover Ranger observed vs predicted

R<sup>2</sup>= 0.43

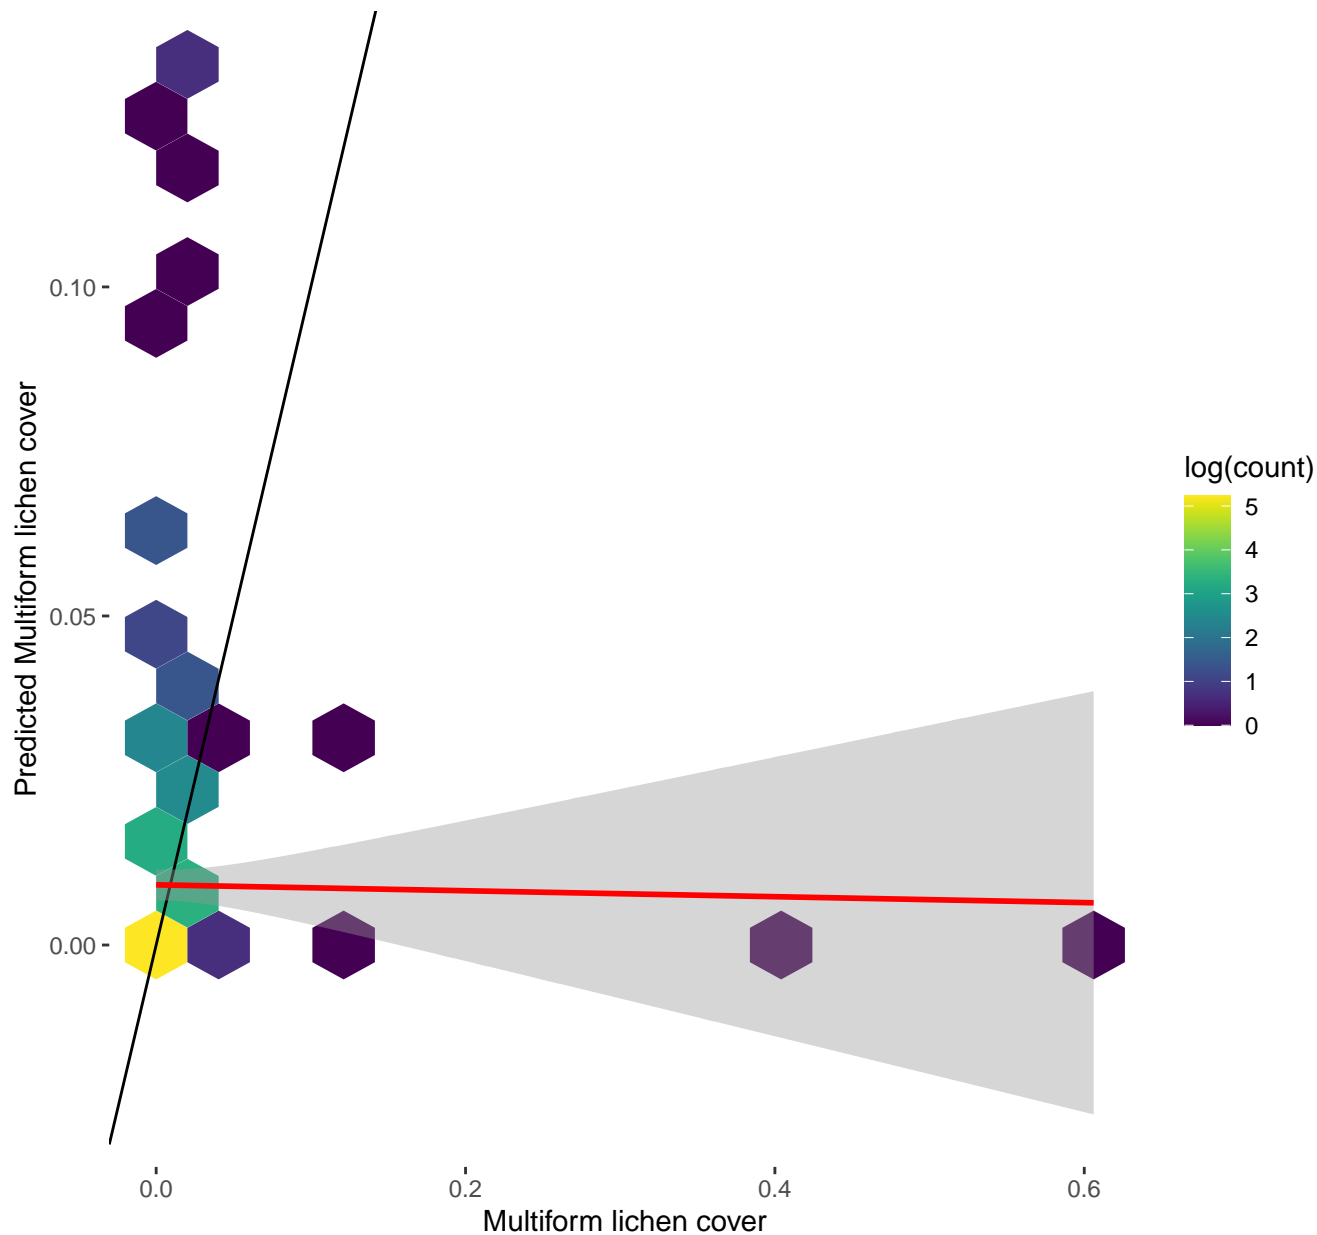

# Foliose lichen cover Ranger observed vs predicted

R2= 0.23

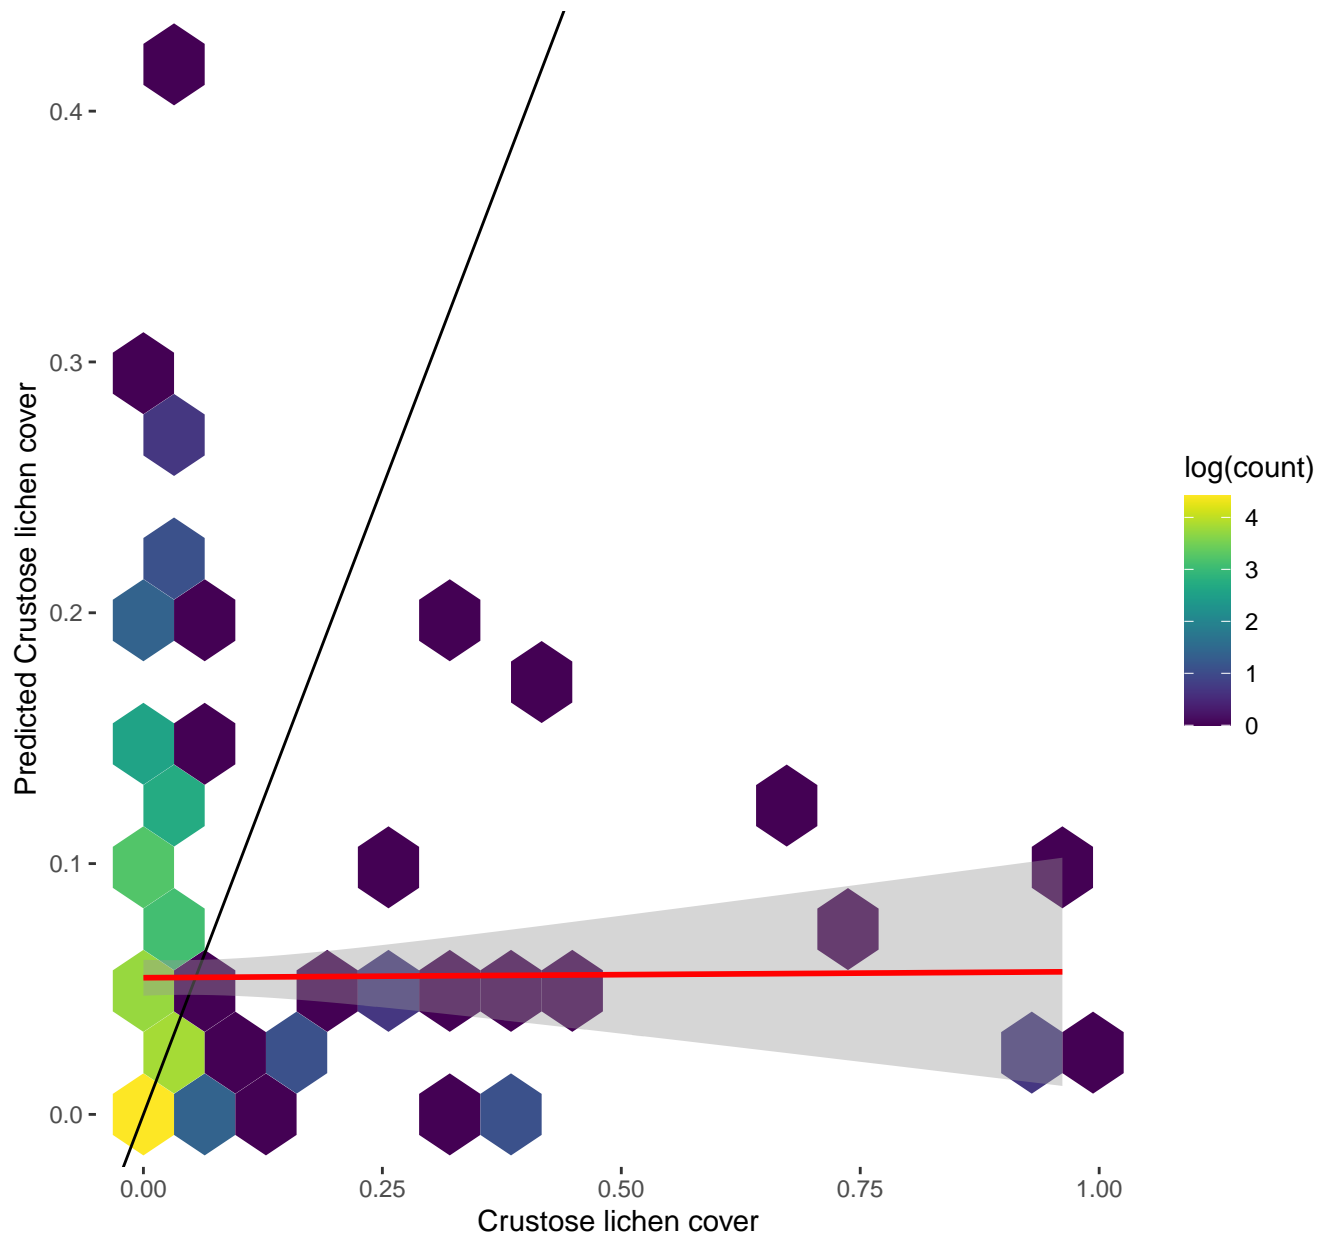

# Multiform lichen cover Ranger observed vs predicted

R2= 0

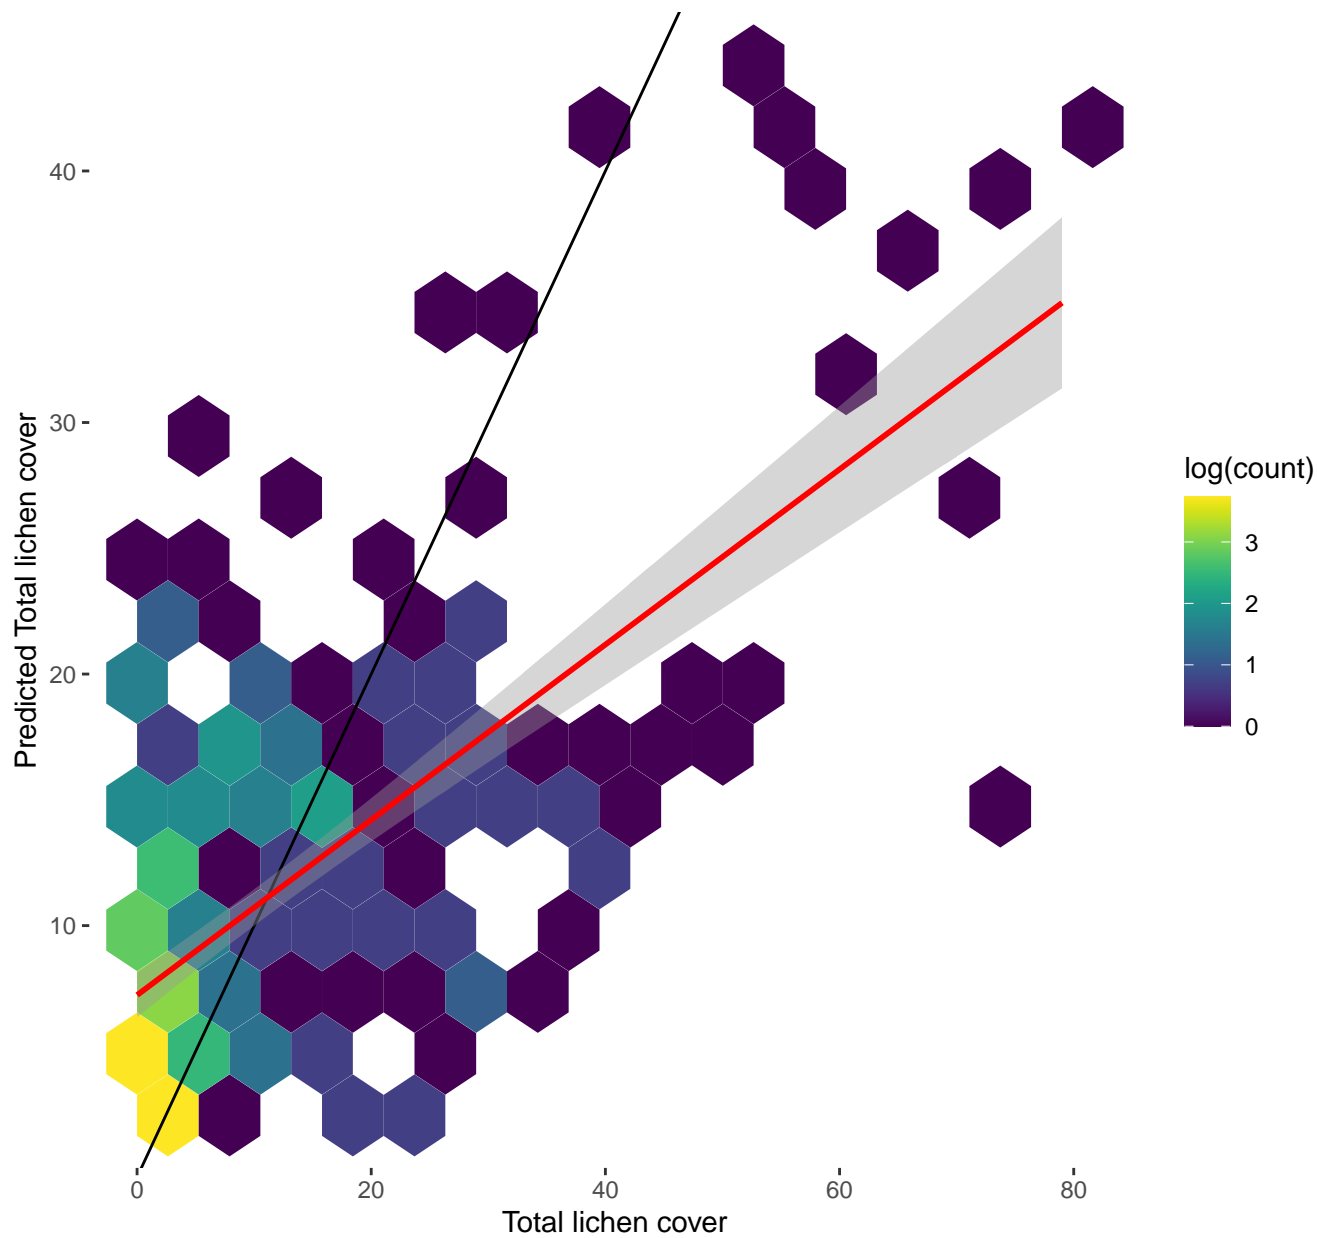

# Crustose lichen cover Ranger observed vs predicted

R<sup>2</sup>= 0

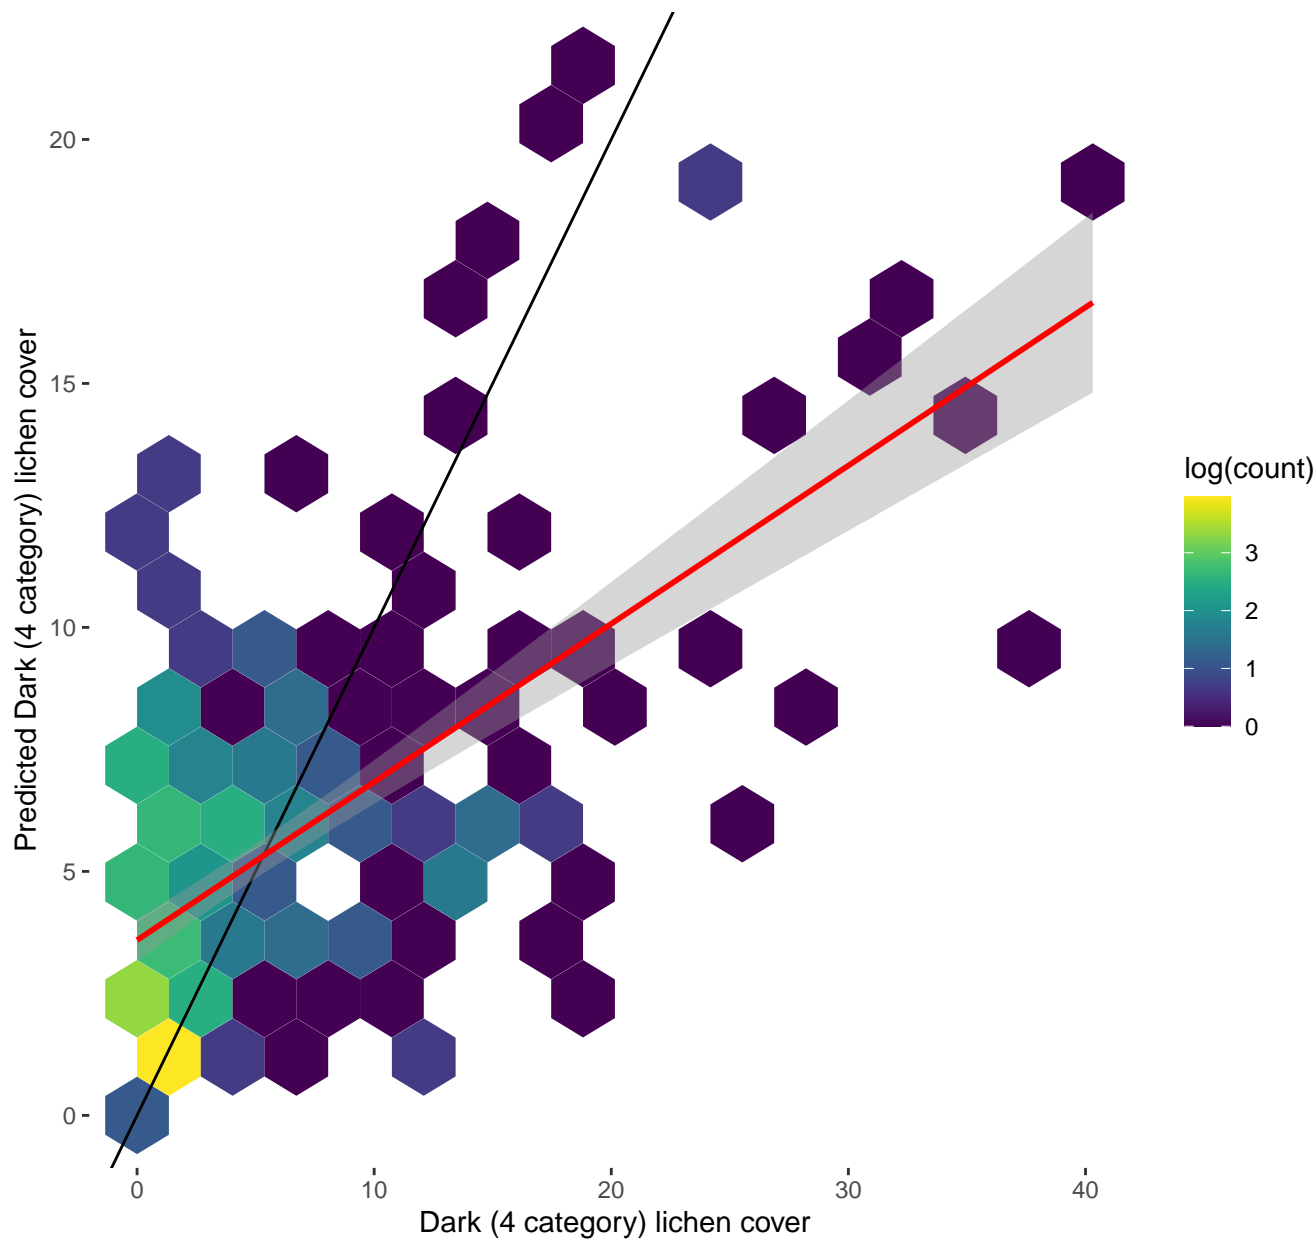

# Total lichen cover Ranger observed vs predicted

R2= 0.41

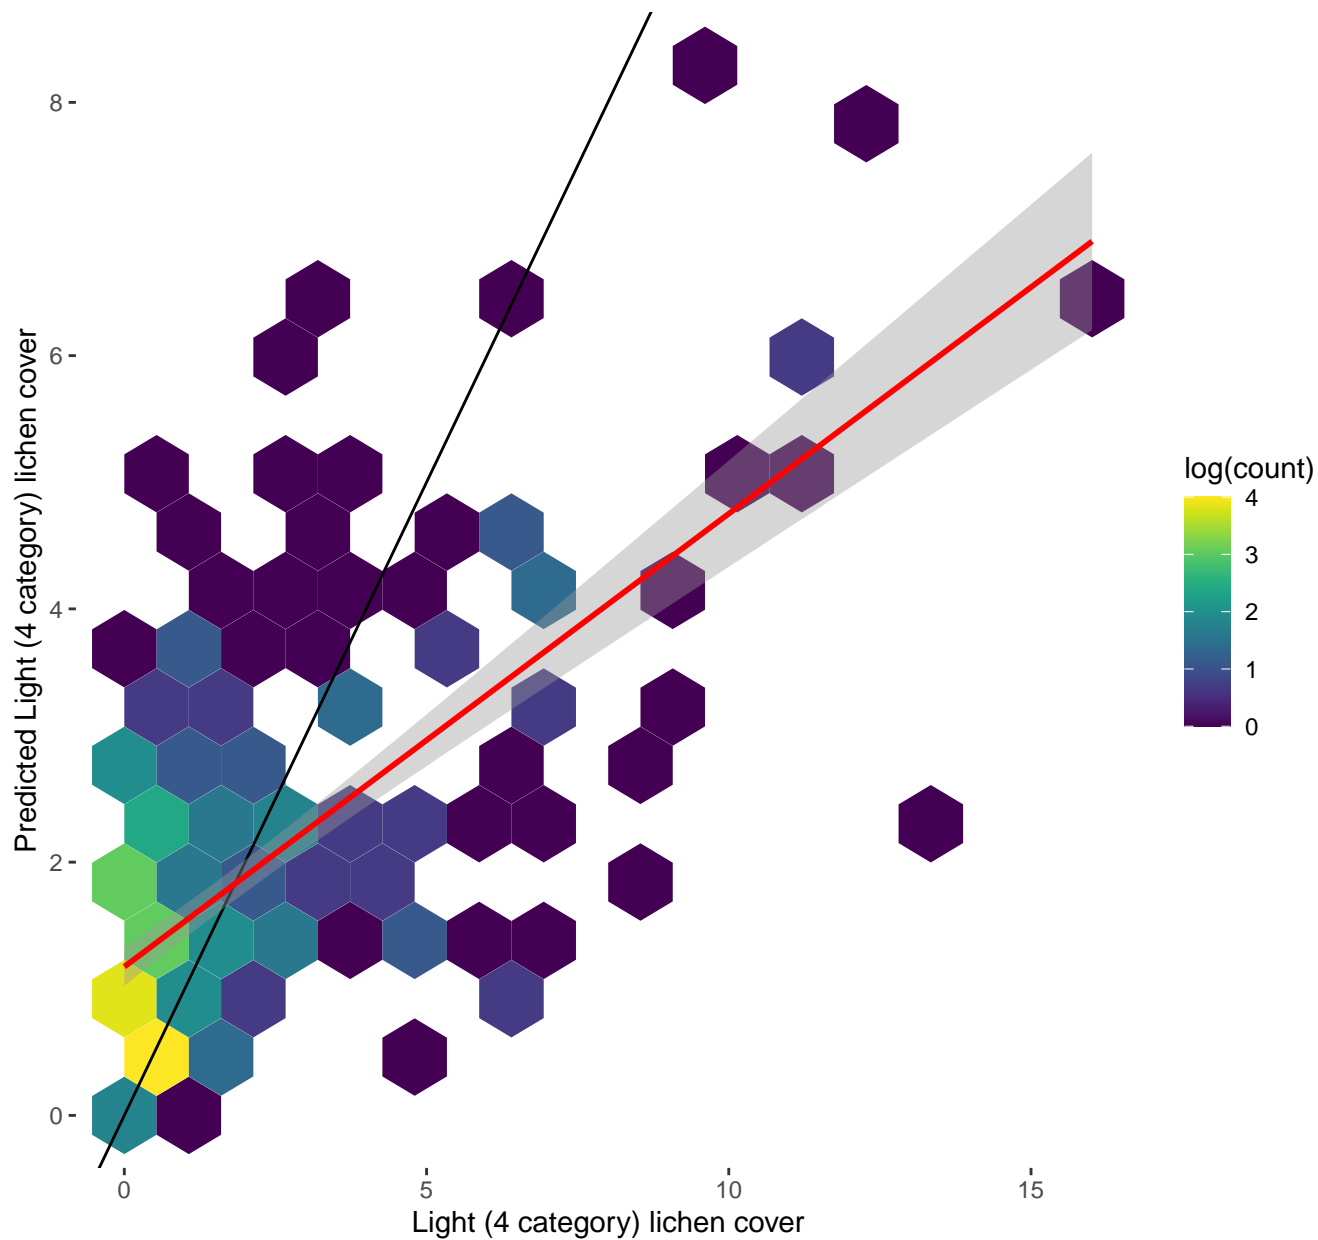

# Dark (4 category) lichen cover Ranger observed vs predicted

R2= 0.35

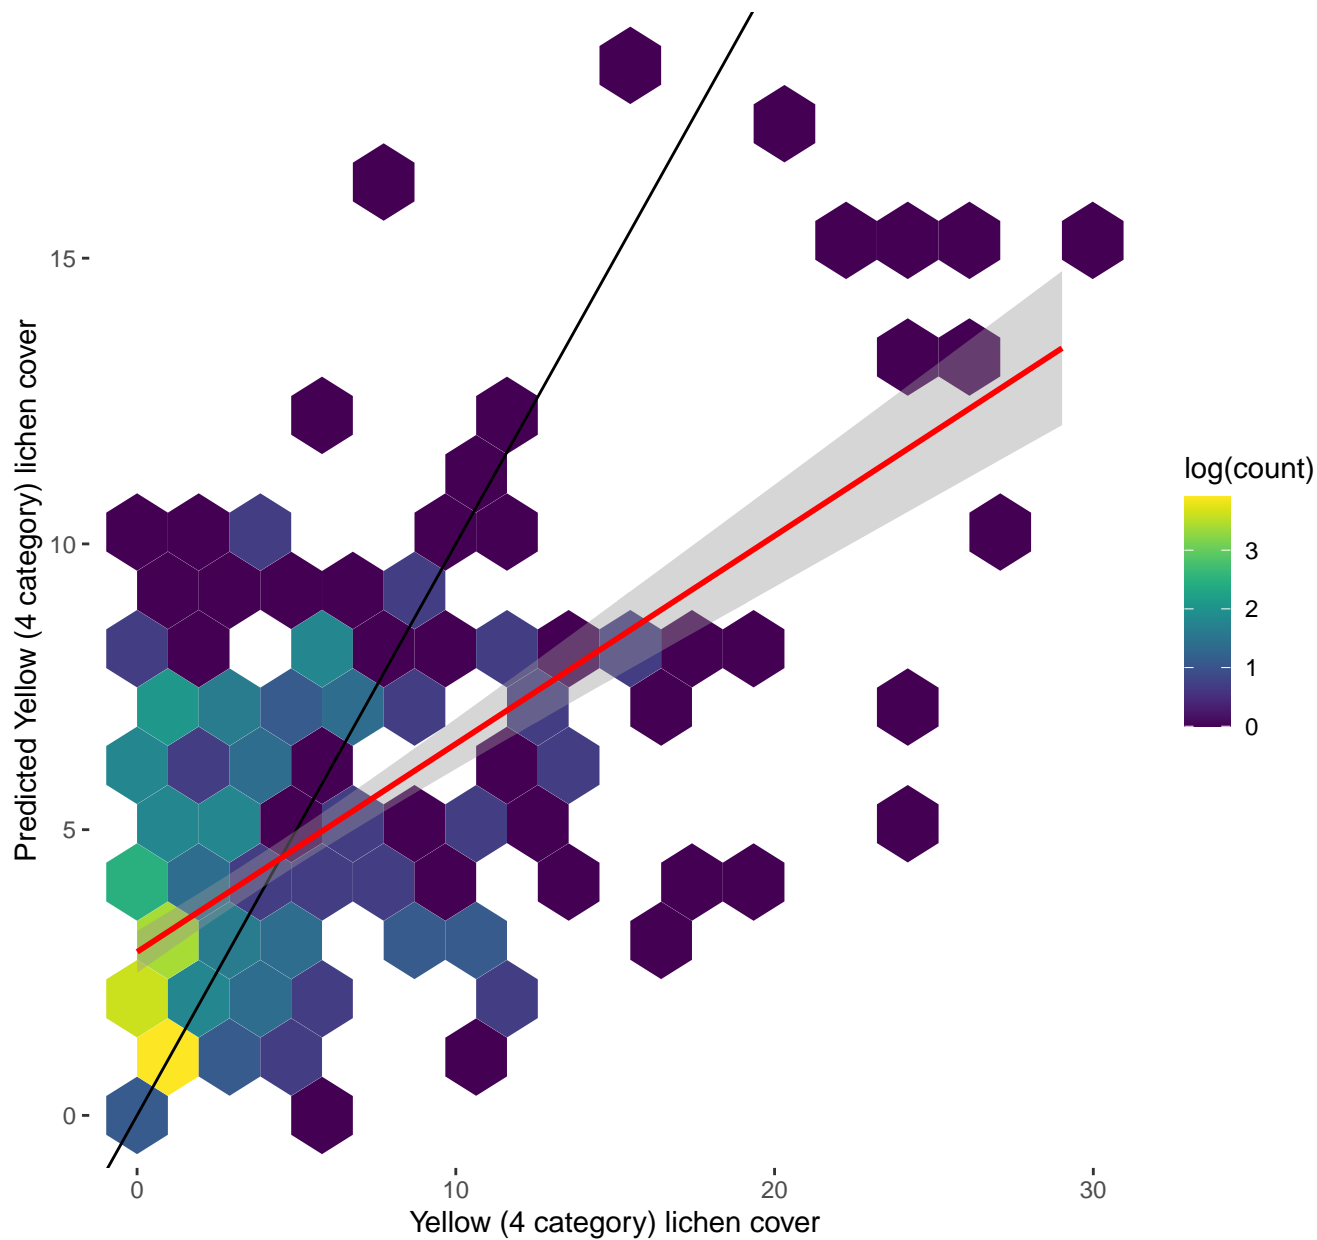

# Light (4 category) lichen cover Ranger observed vs predicted

R2= 0.43

# Yellow (4 category) lichen cover Ranger observed vs predicted

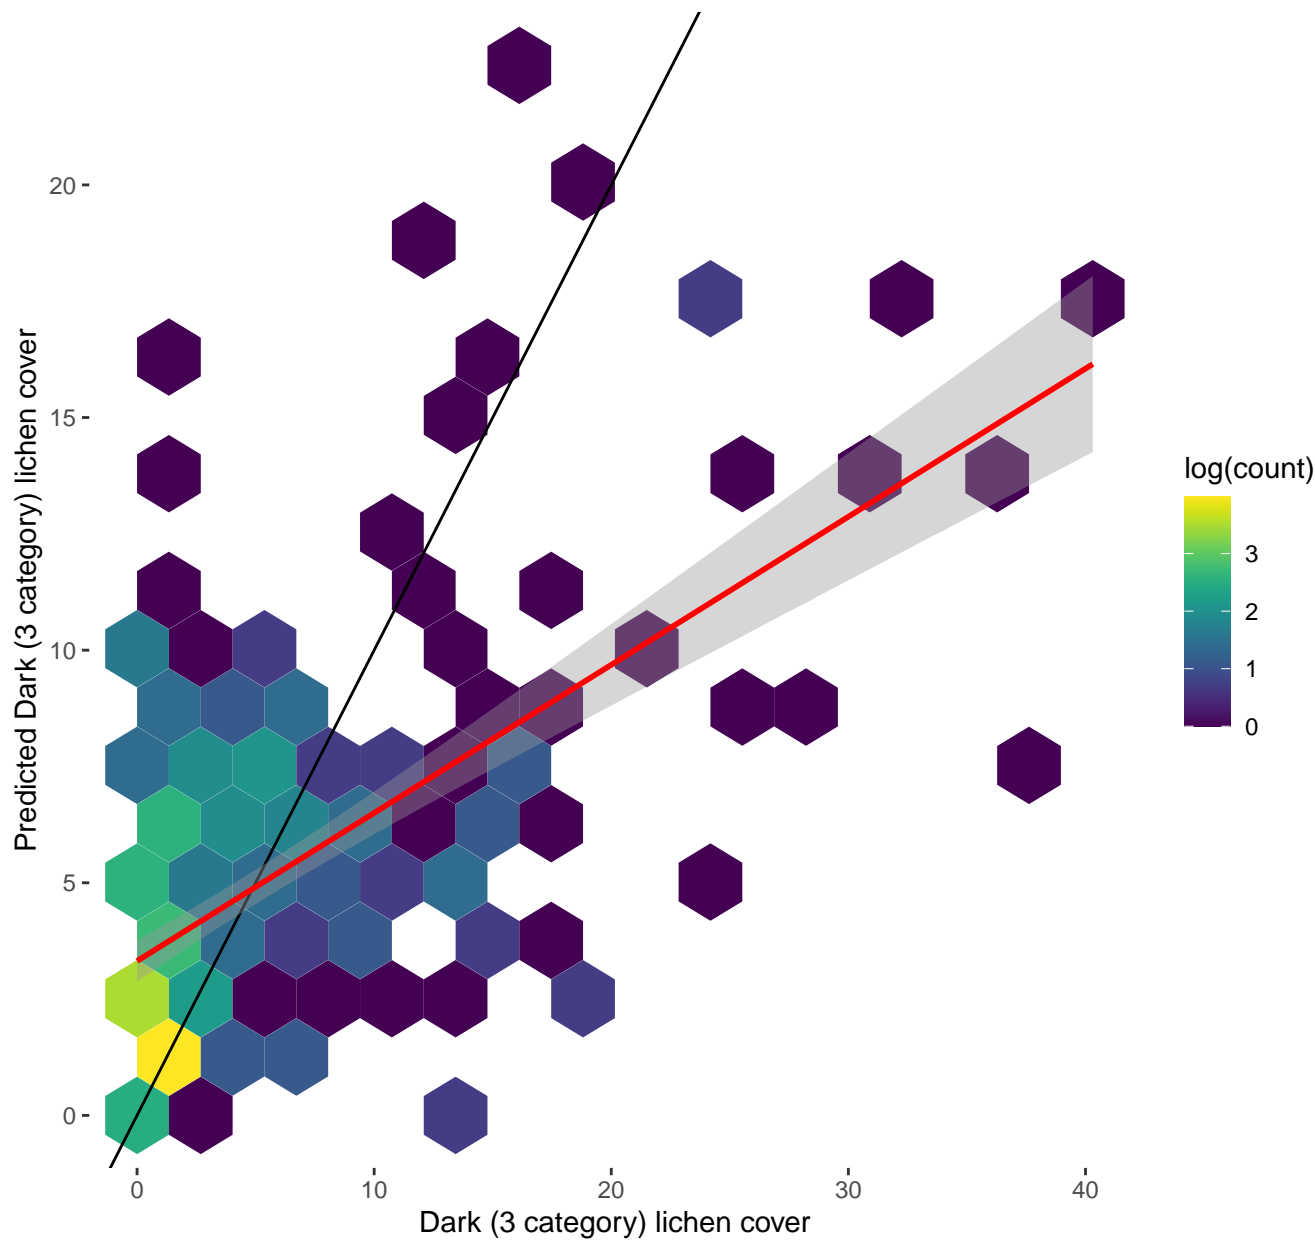

R2= 0.4

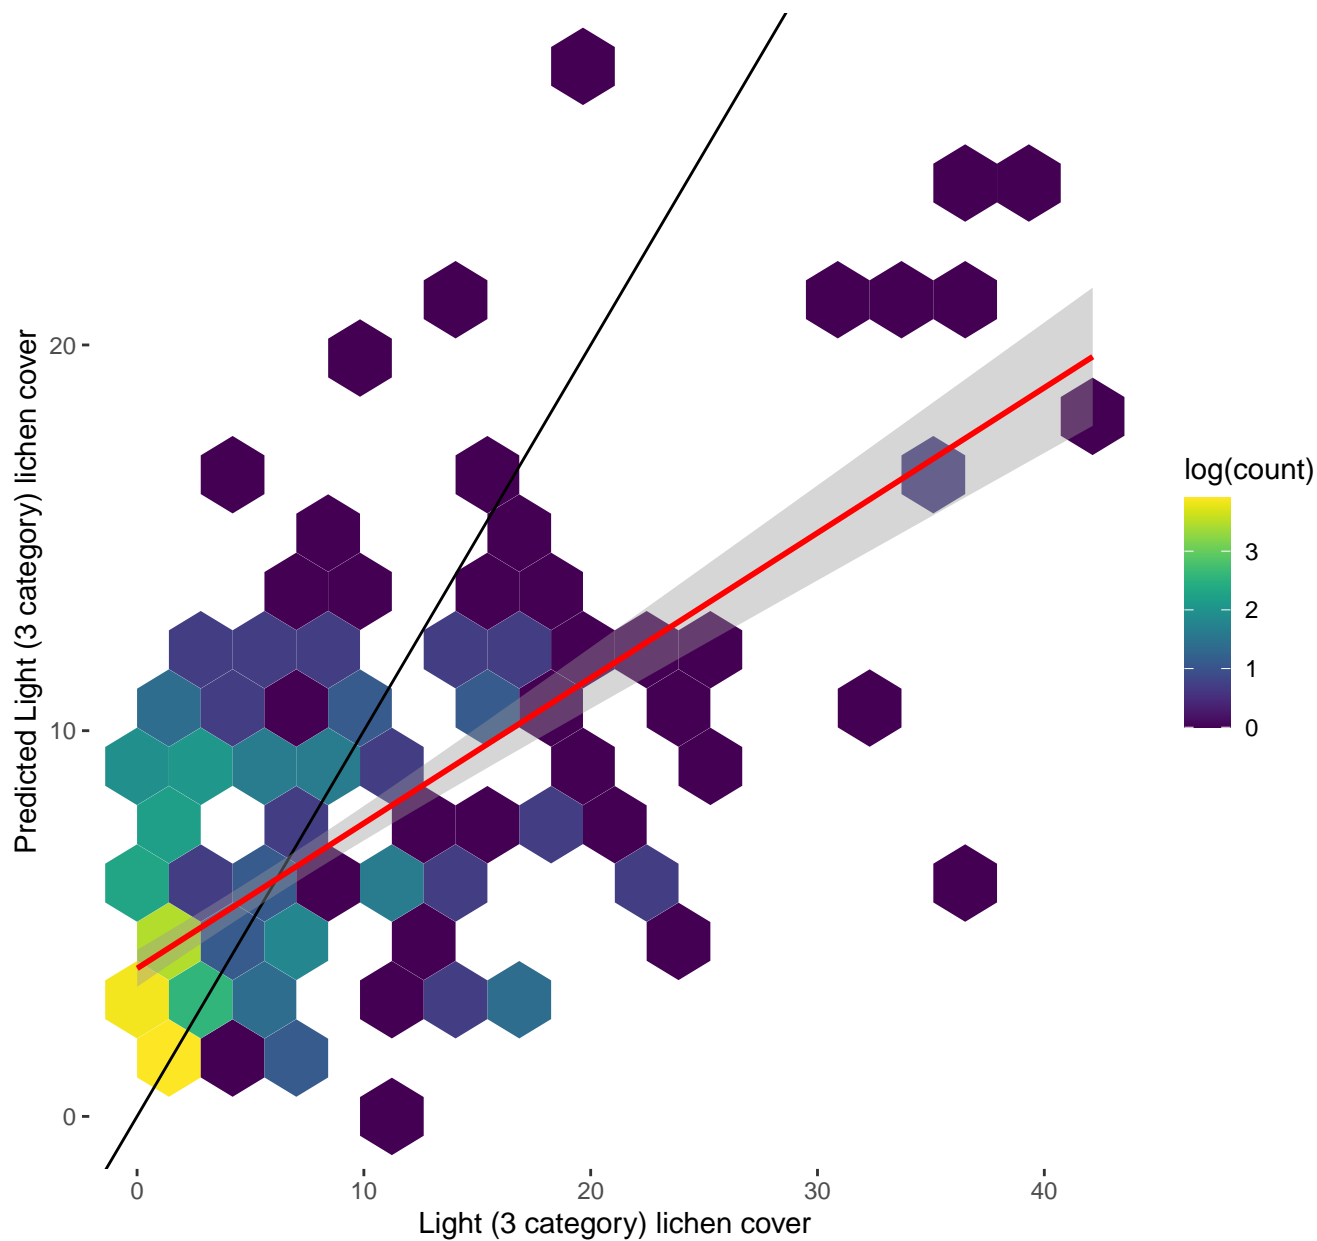

# Dark (3 category) lichen cover Ranger observed vs predicted

R2= 0.33

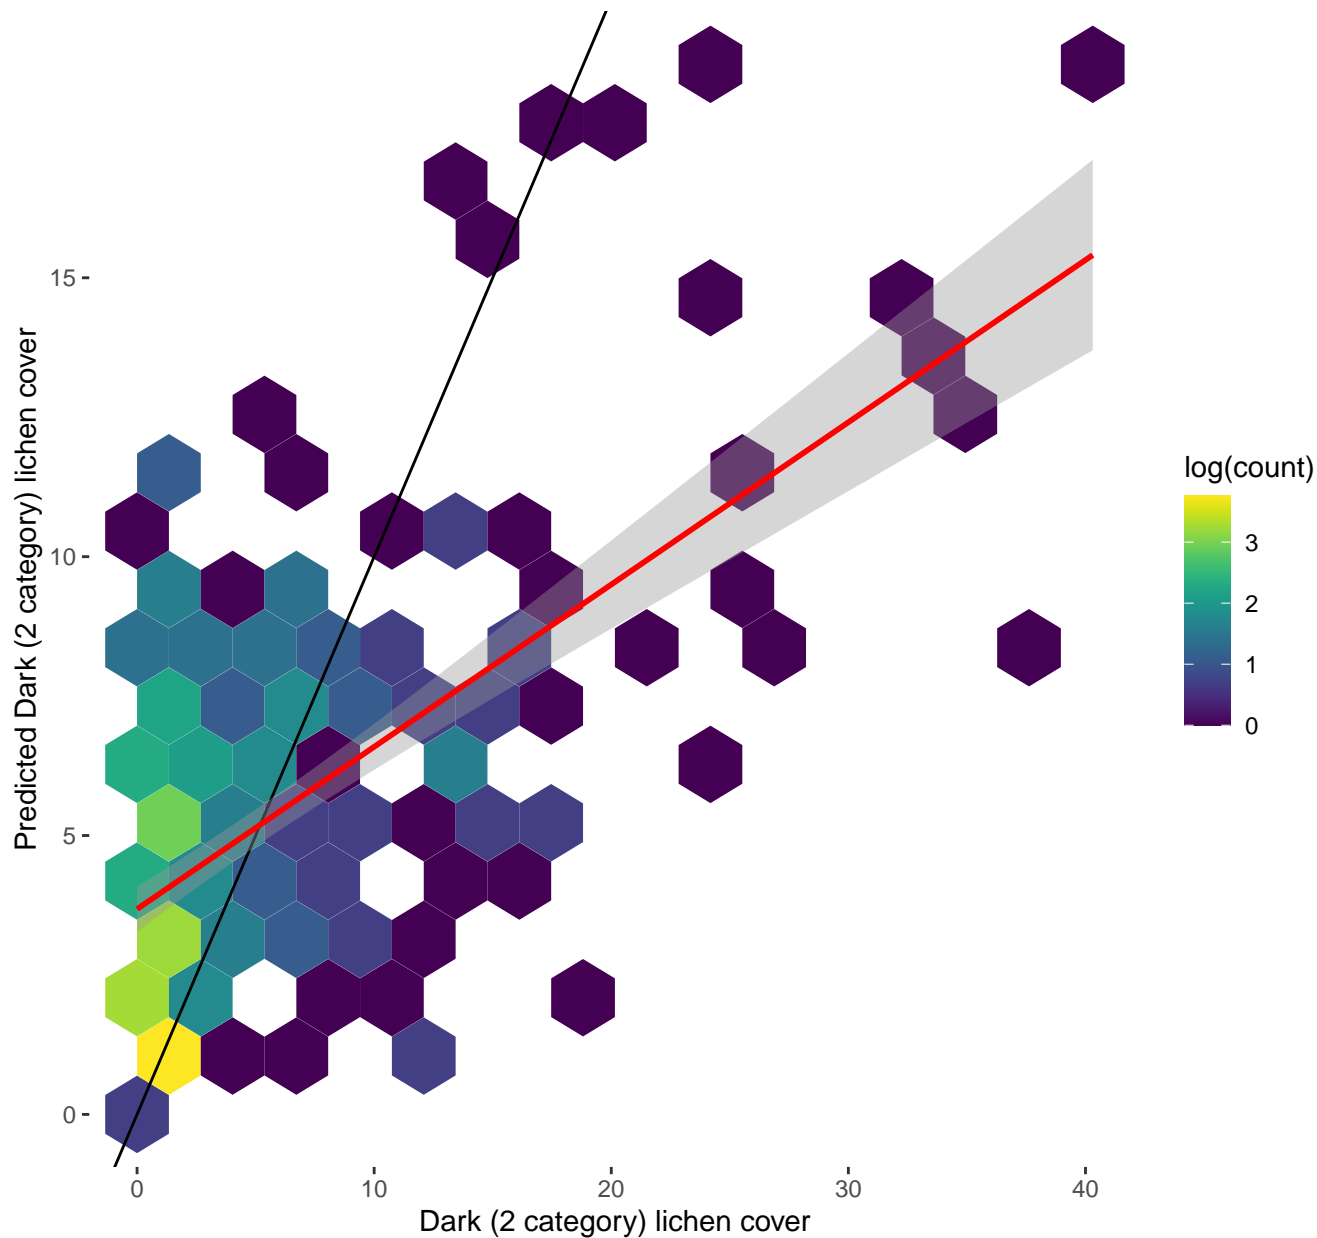

# Light (3 category) lichen cover Ranger observed vs predicted

R2= 0.46

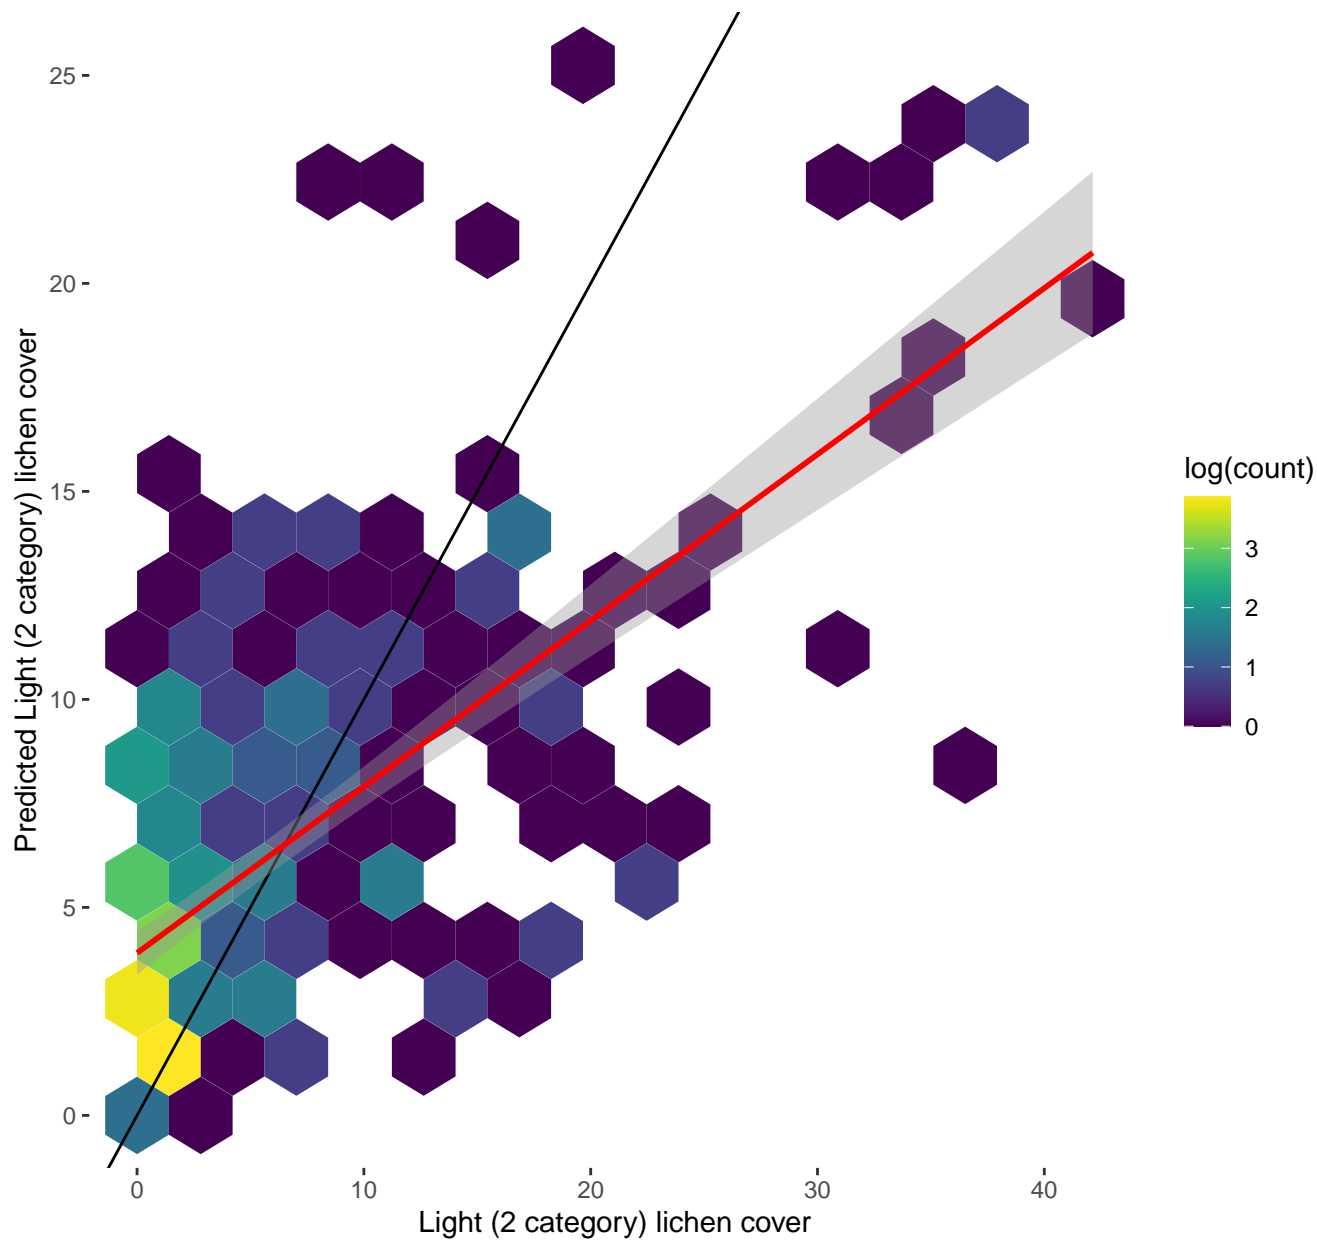

# Dark (2 category) lichen cover Ranger observed vs predicted

R2= 0.34

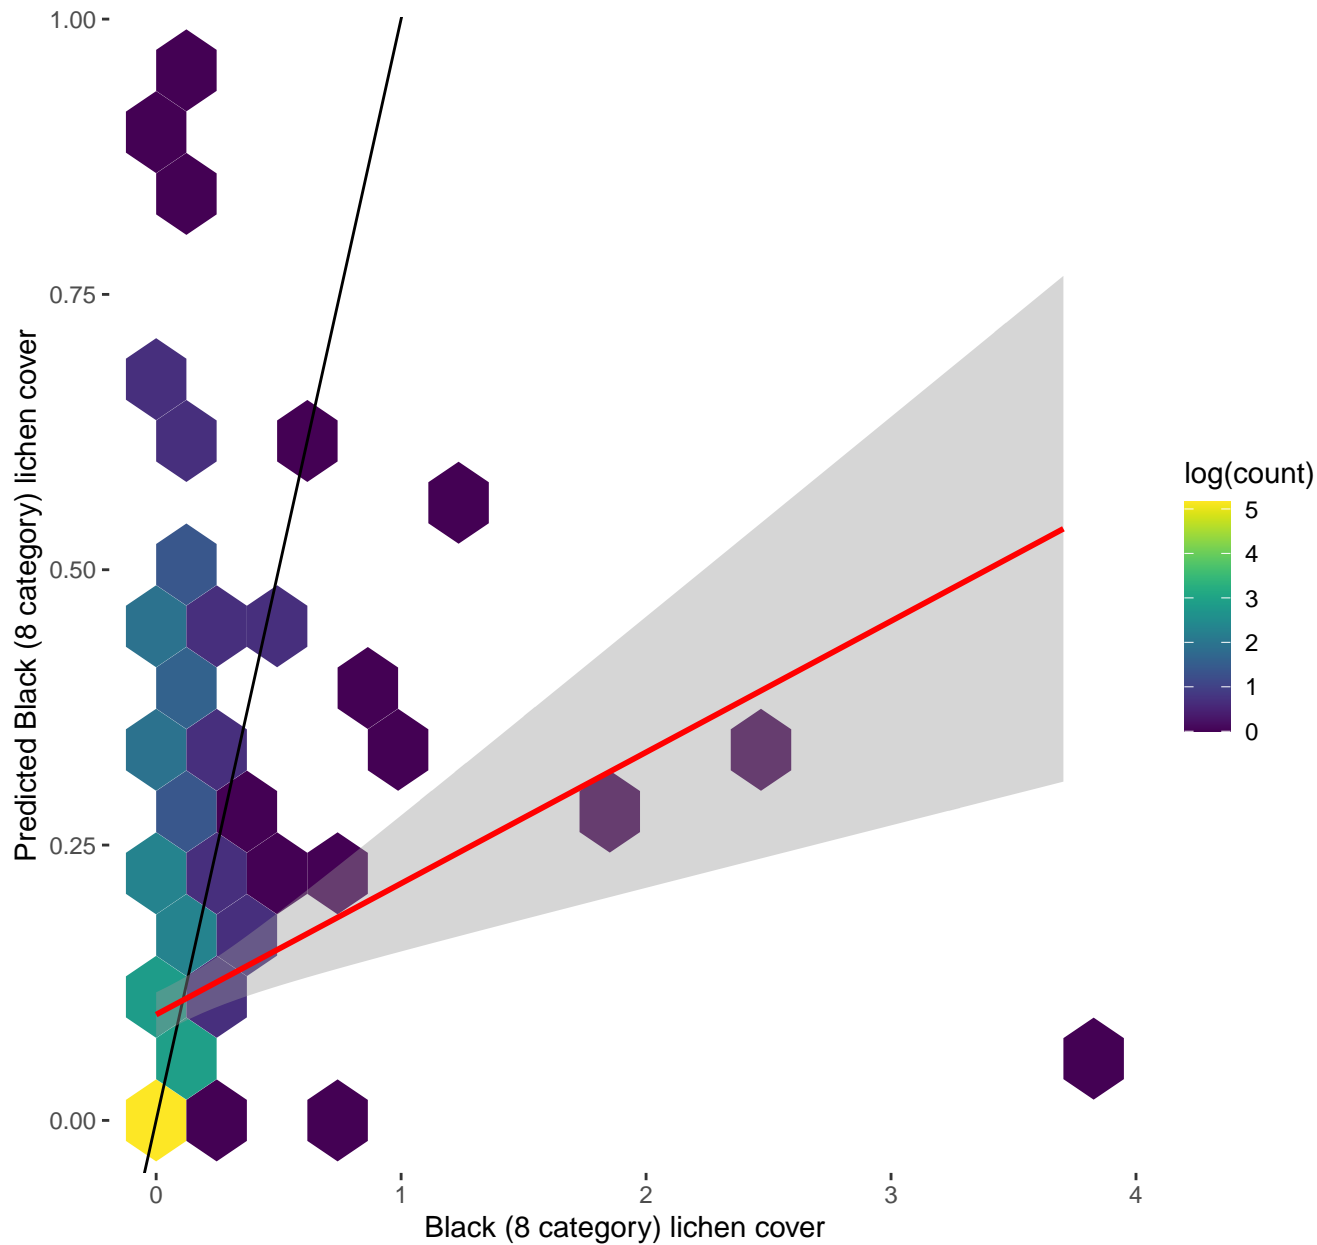

# Light (2 category) lichen cover Ranger observed vs predicted

R2= 0.44

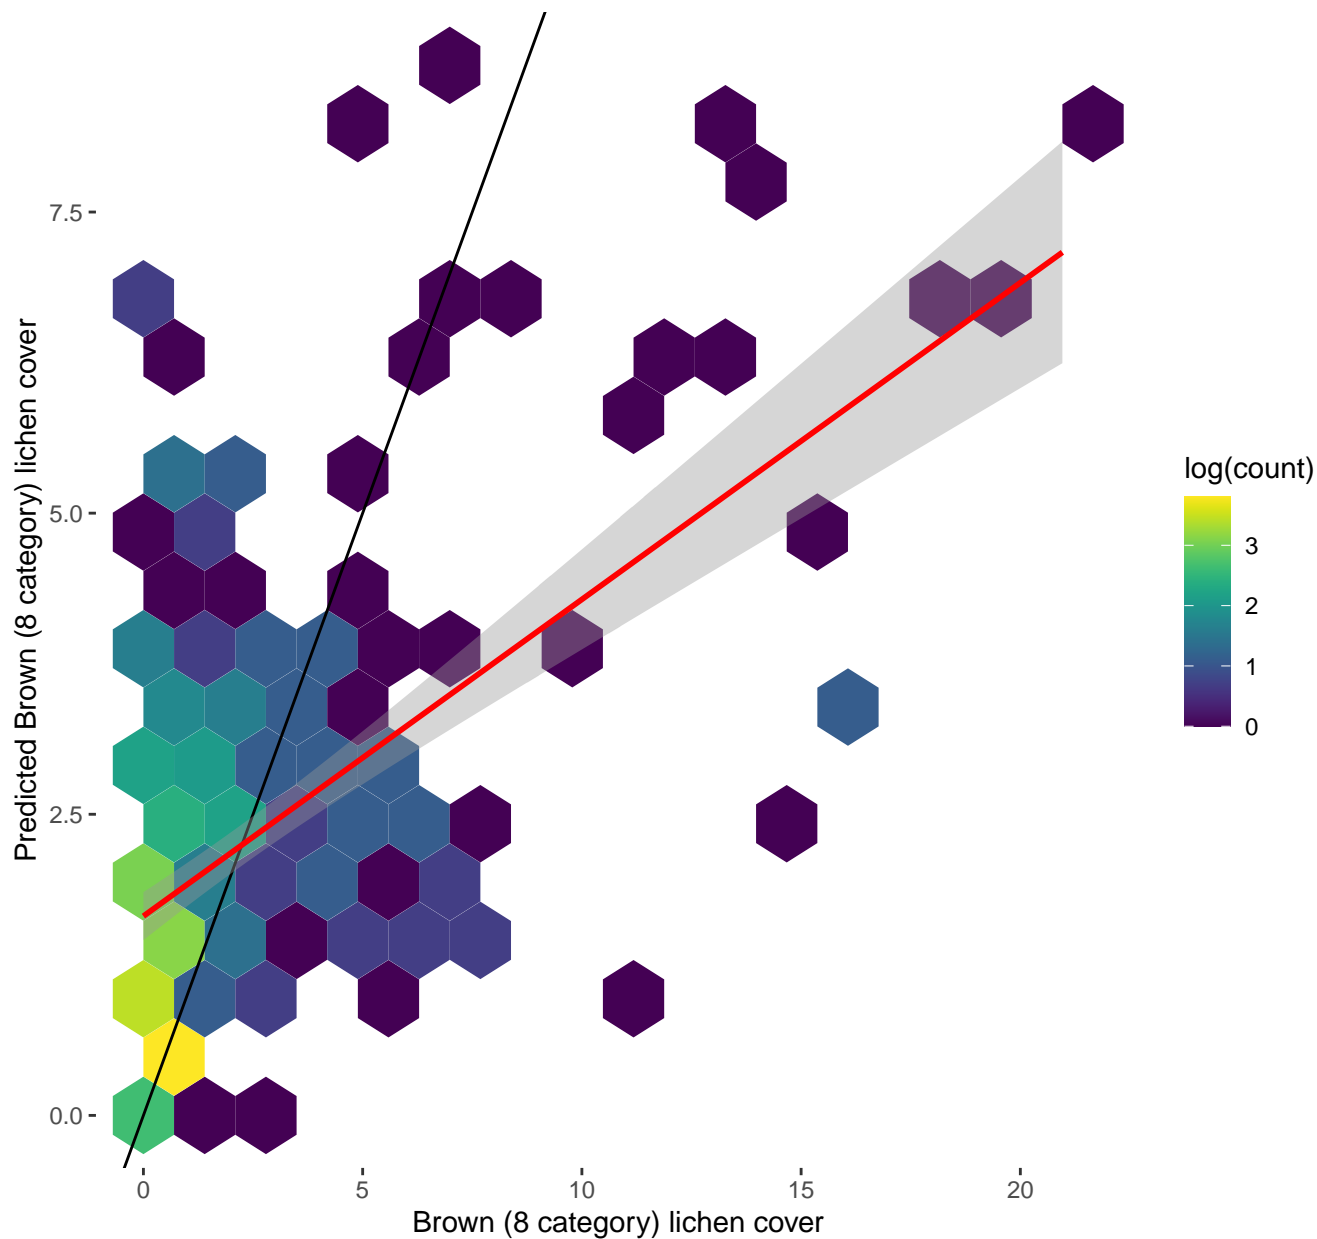

# Black (8 category) lichen cover Ranger observed vs predicted

R2= 0.05

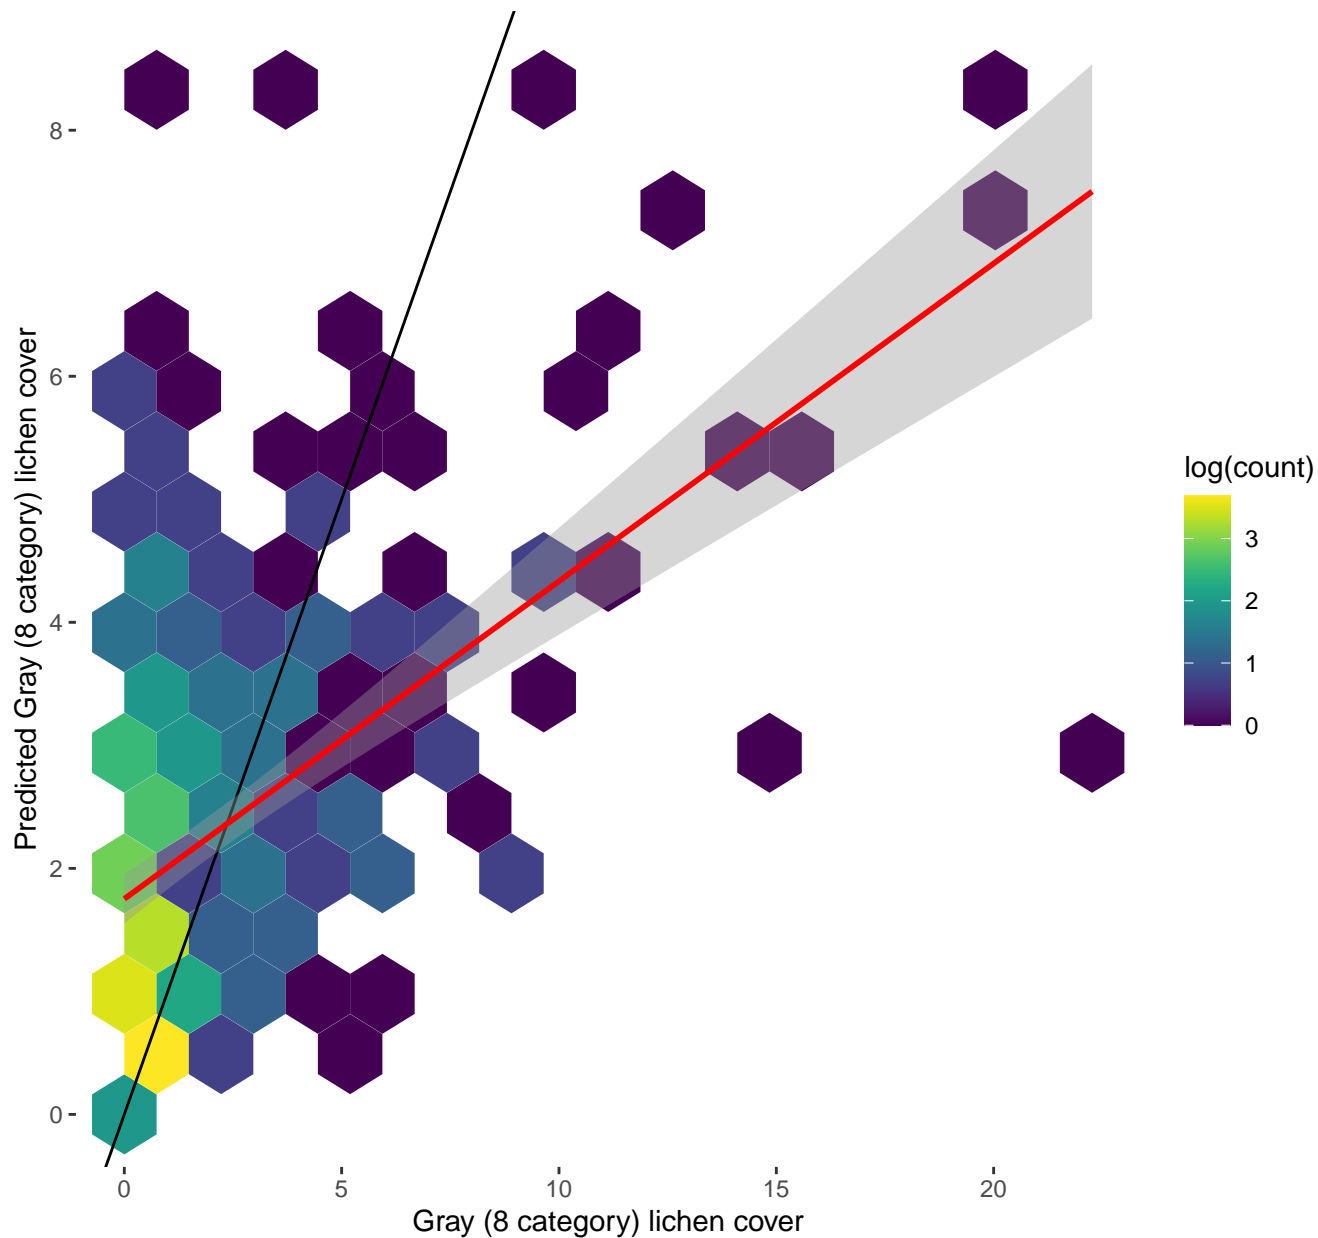

# Brown (8 category) lichen cover Ranger observed vs predicted

R2= 0.29

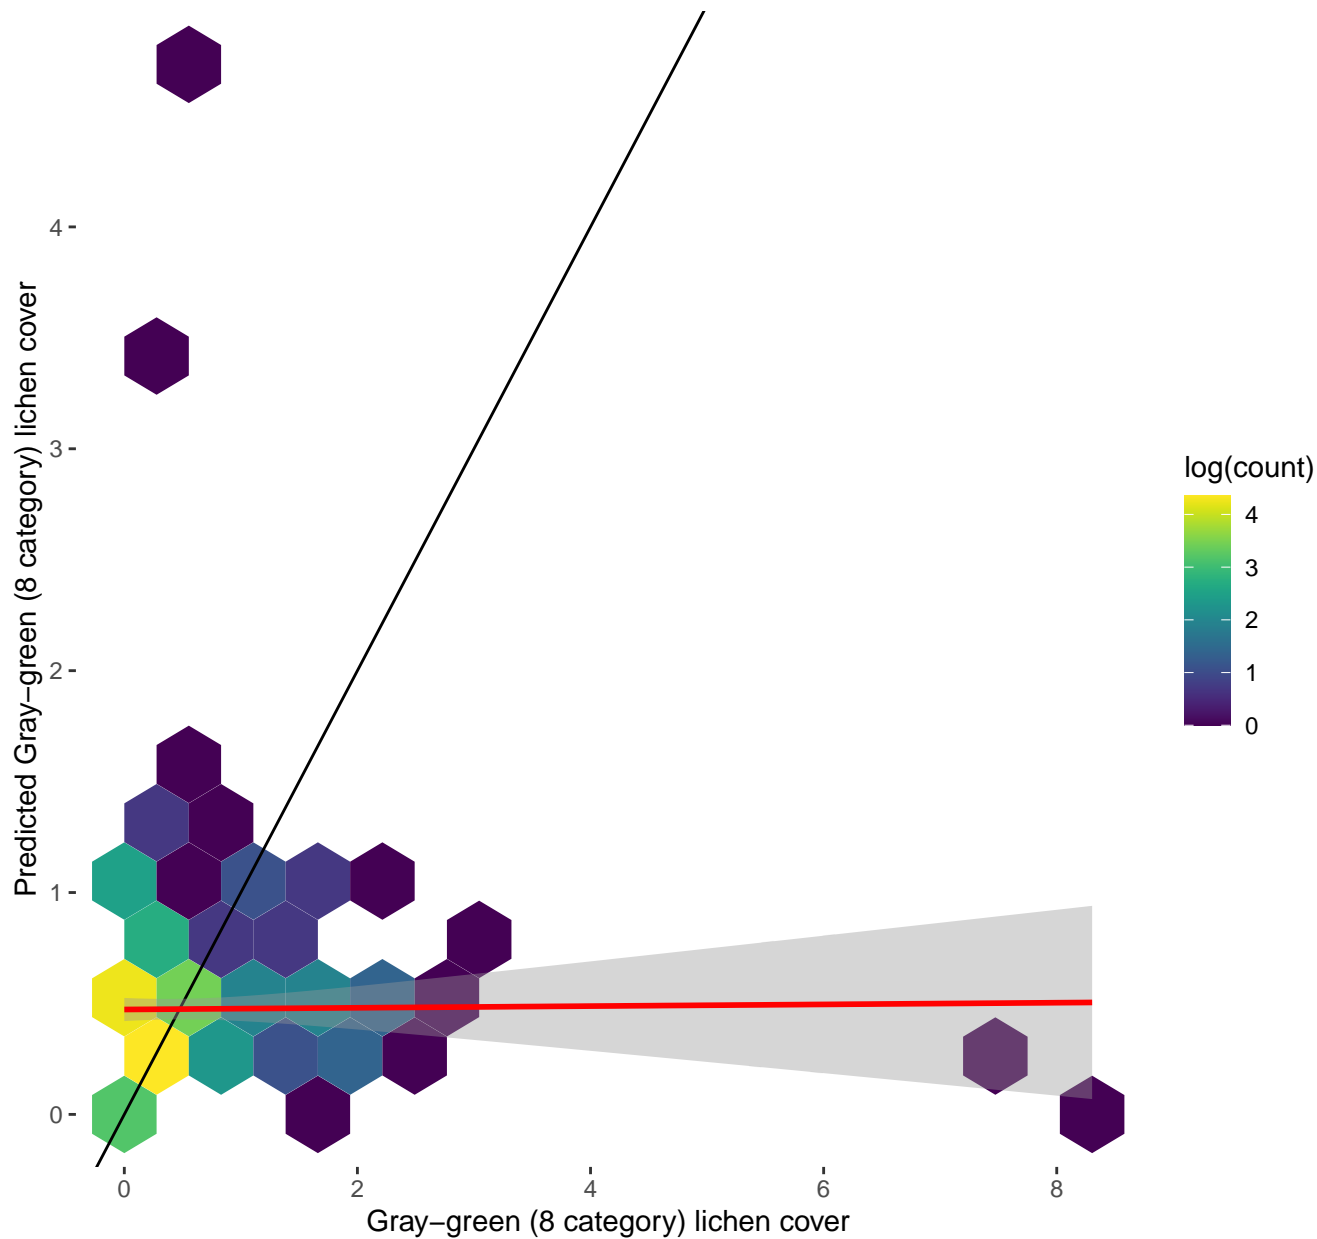

# Gray (8 category) lichen cover Ranger observed vs predicted

R2= 0.26

# Gray-green (8 category) lichen cover Ranger observed vs predicted

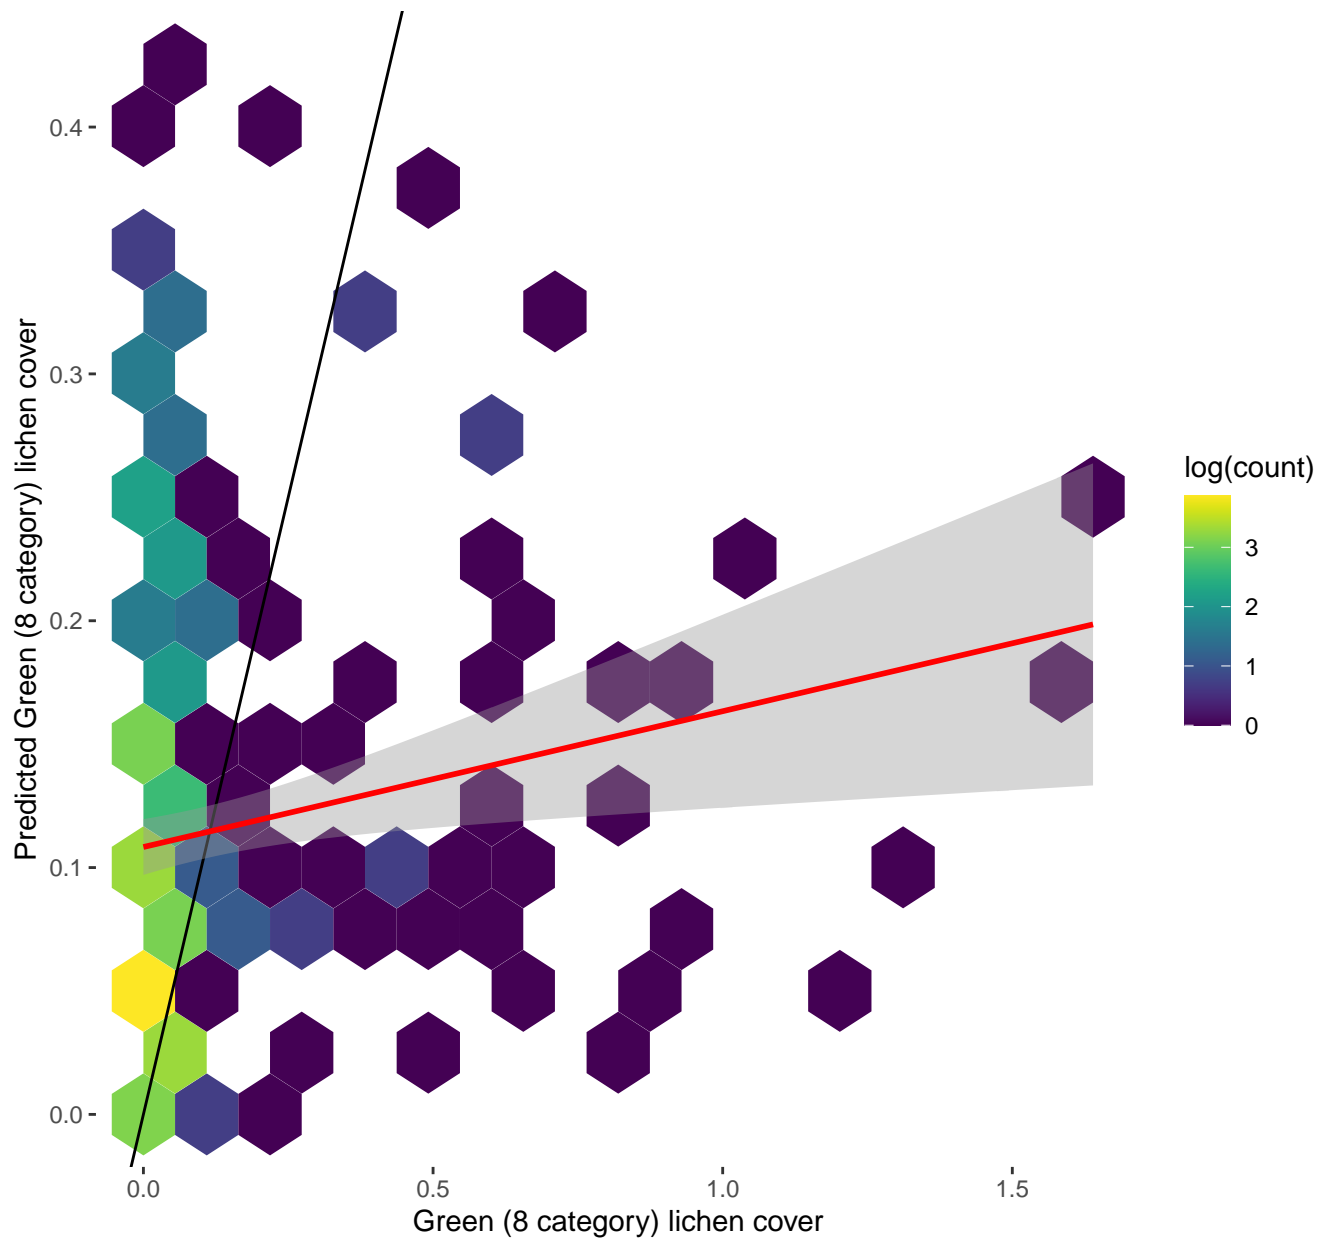

R2= 0

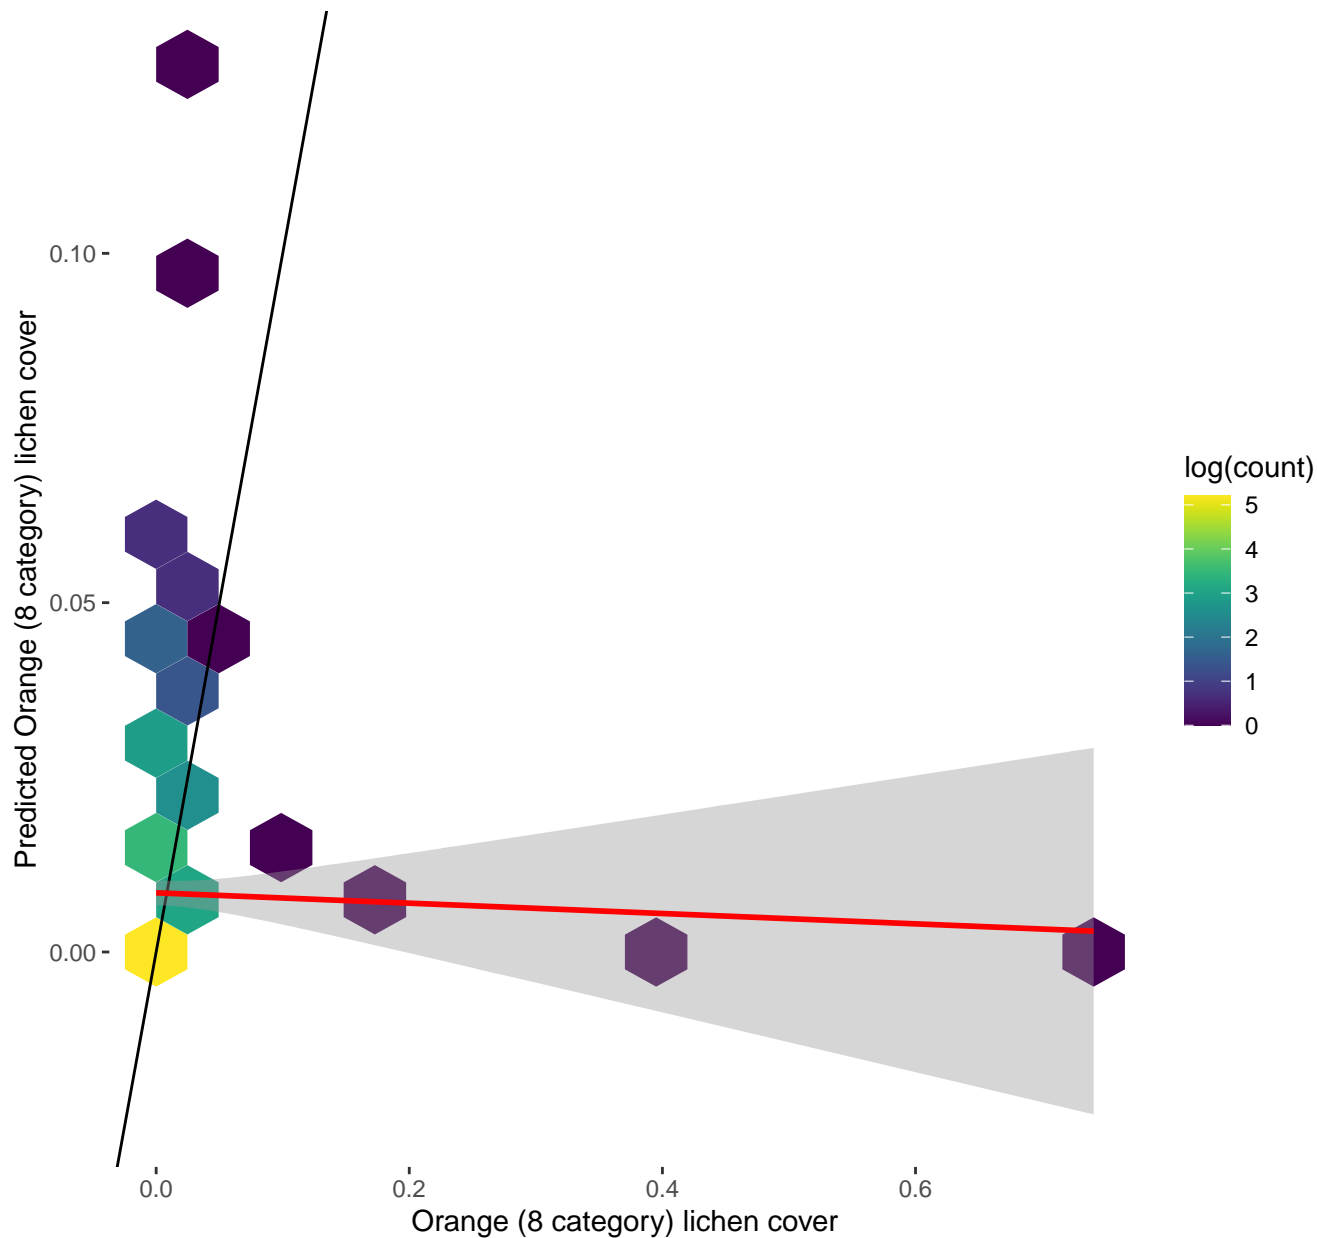

# Green (8 category) lichen cover Ranger observed vs predicted

R<sup>2</sup>= 0.02

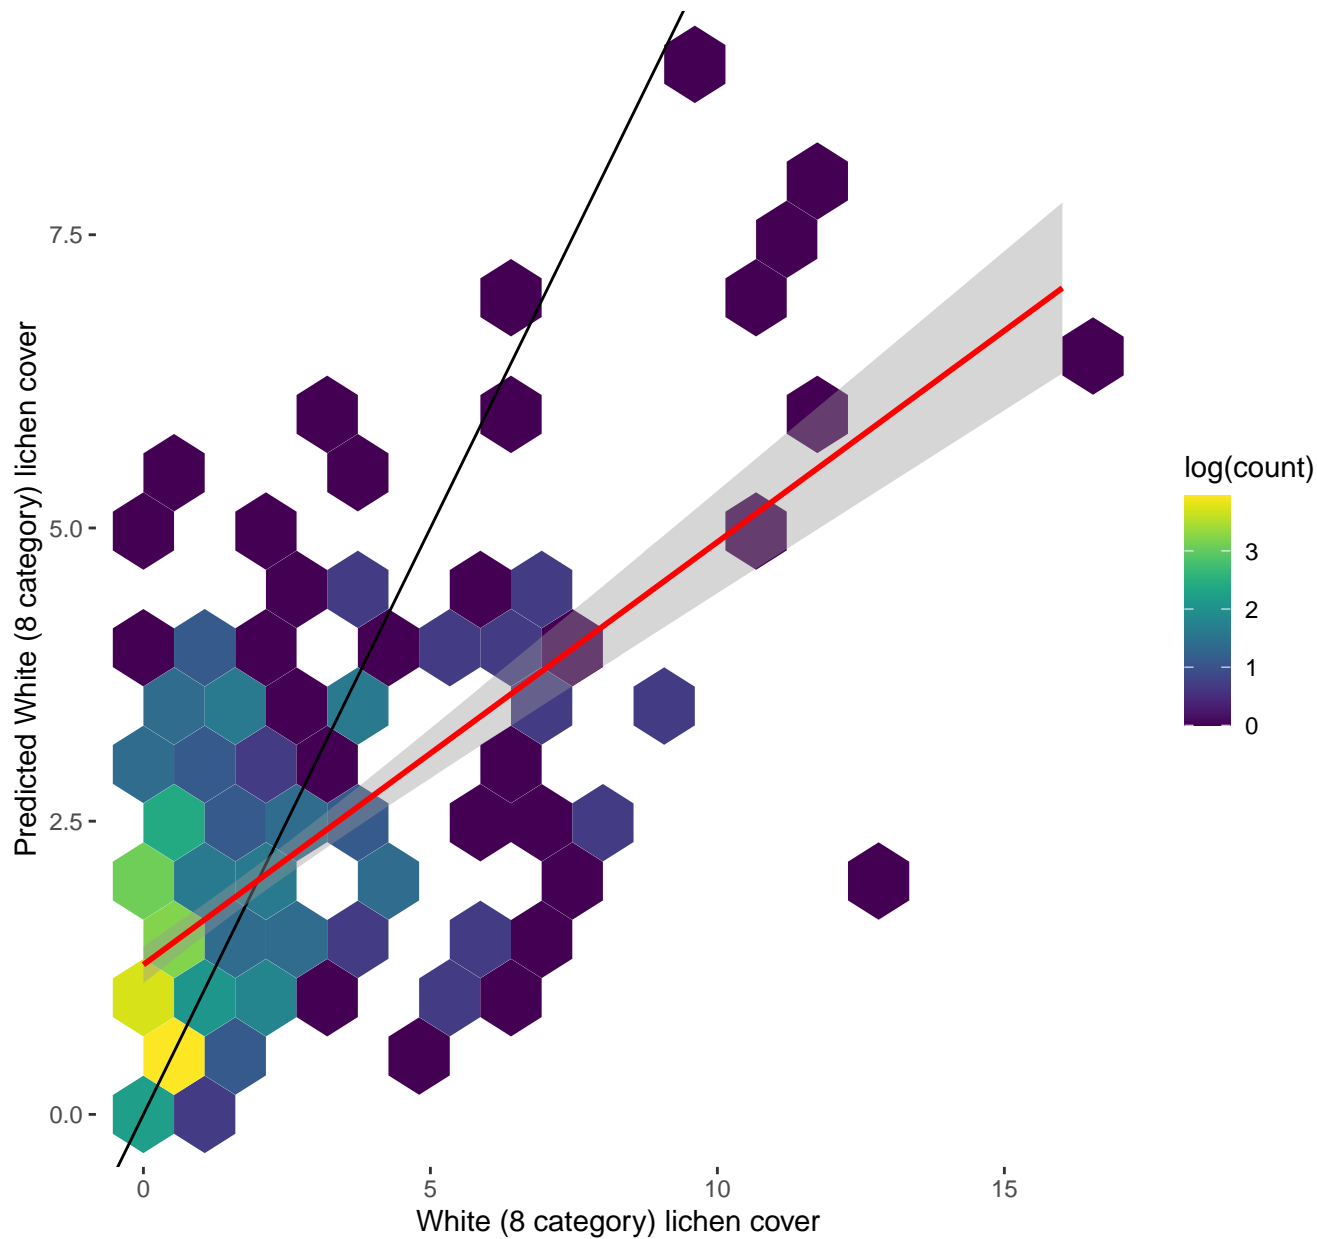

# Orange (8 category) lichen cover Ranger observed vs predicted

R2= 0

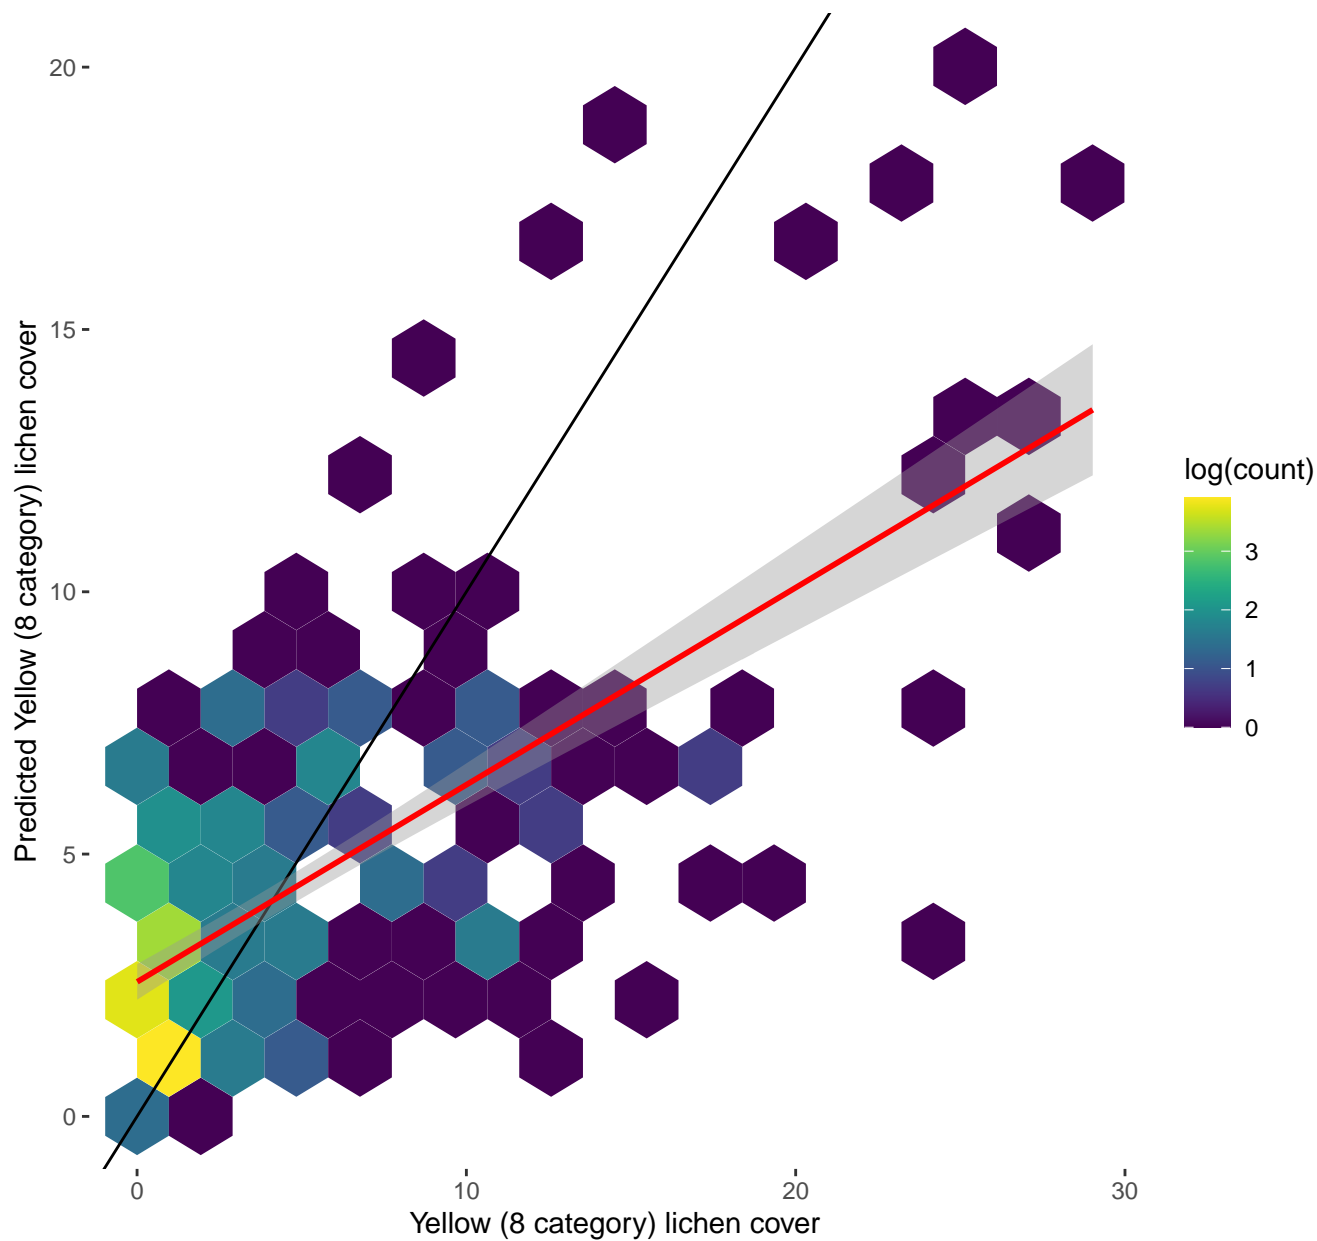

# White (8 category) lichen cover Ranger observed vs predicted

R2= 0.41

# Yellow (8 category) lichen cover Ranger observed vs predicted

R2= 0.45

# Lichen volume Ranger observed vs predicted

R2= 0.45
