

Fructose lichen cover Ranger observed vs predicted

R2= 0.46

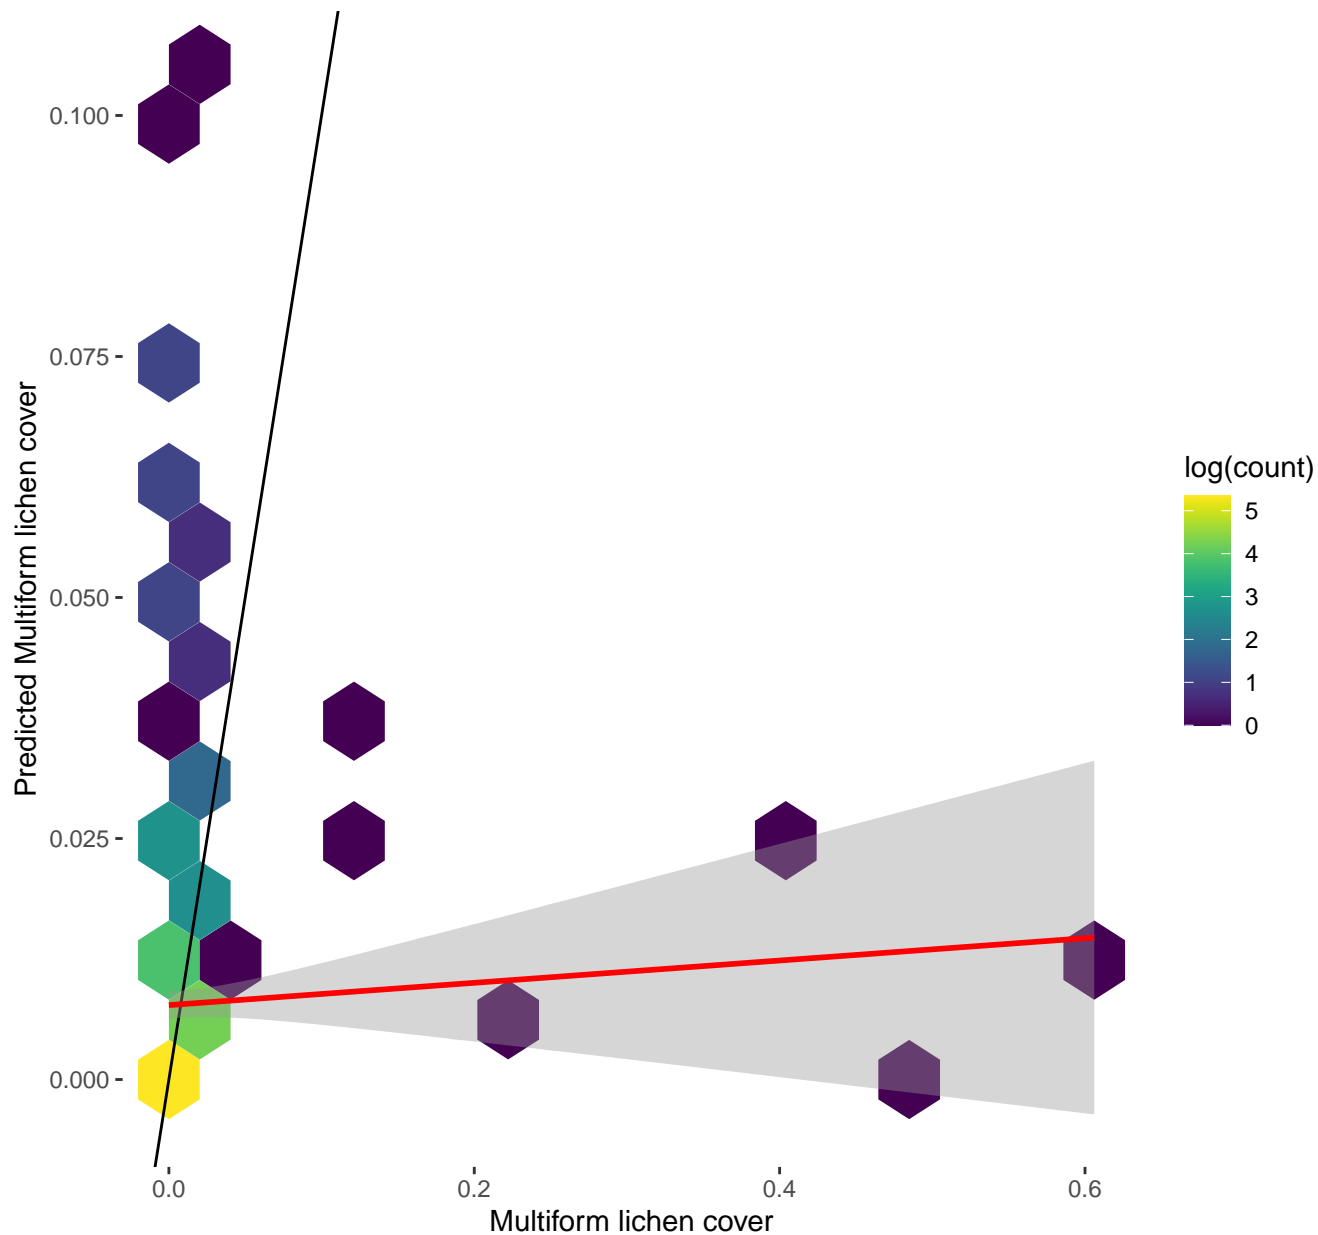

Foliose lichen cover Ranger observed vs predicted

R²= 0.33

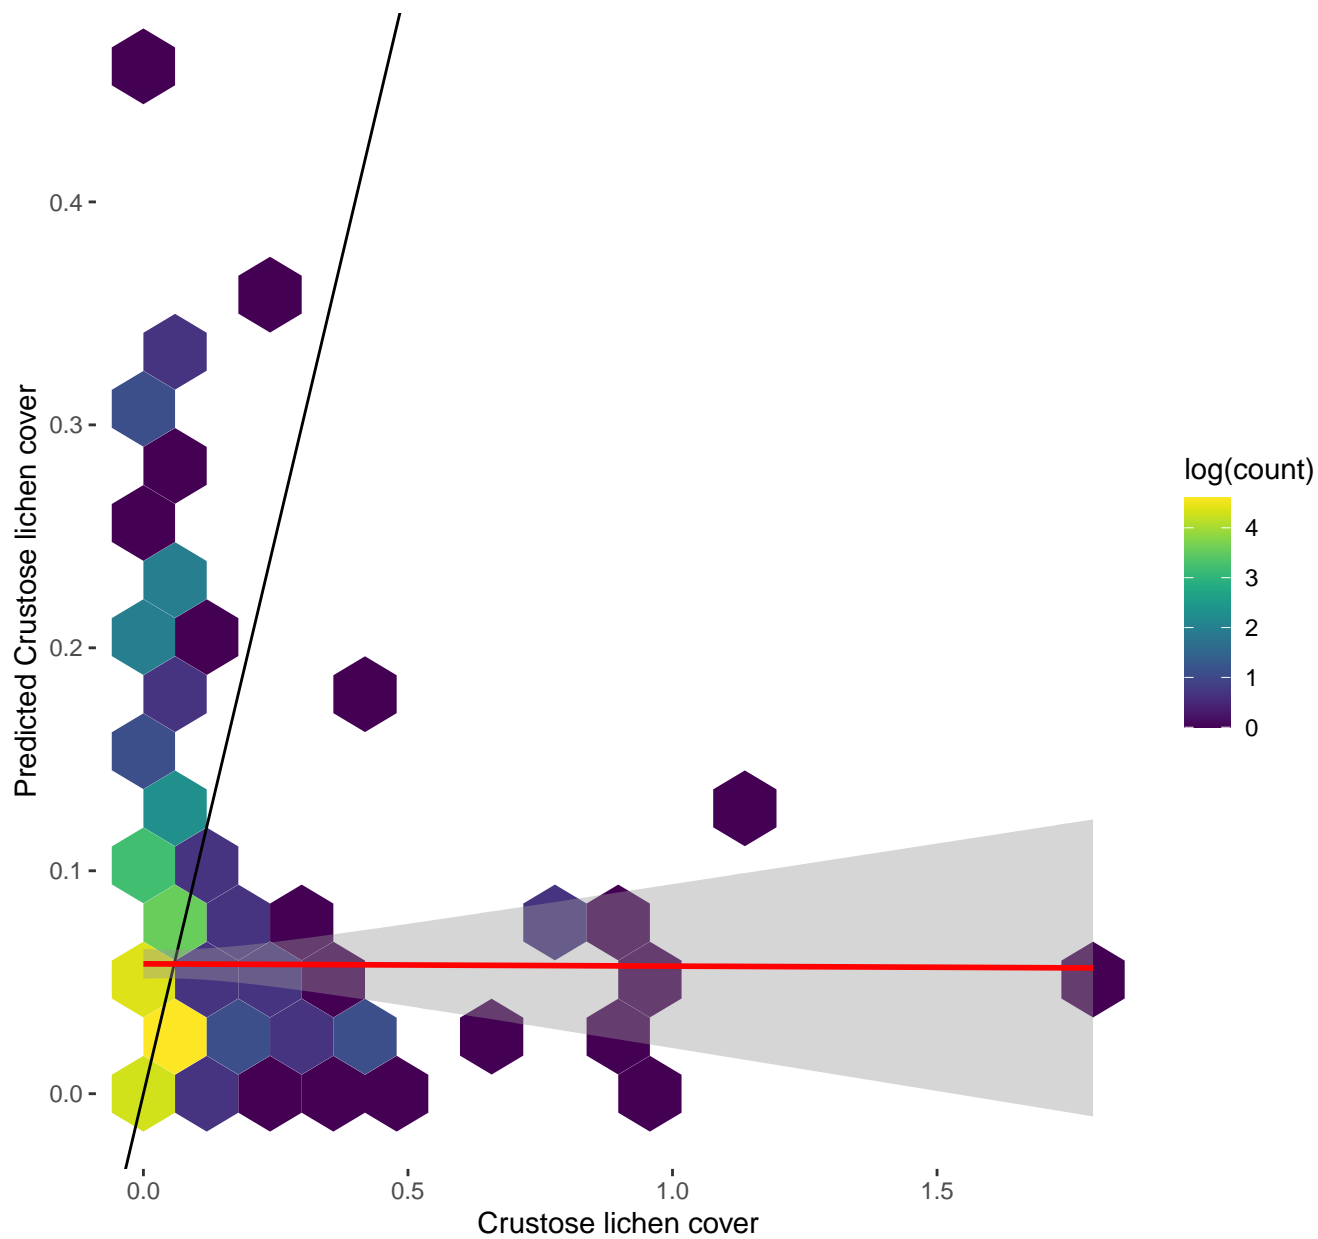

Multiform lichen cover Ranger observed vs predicted

R2= 0

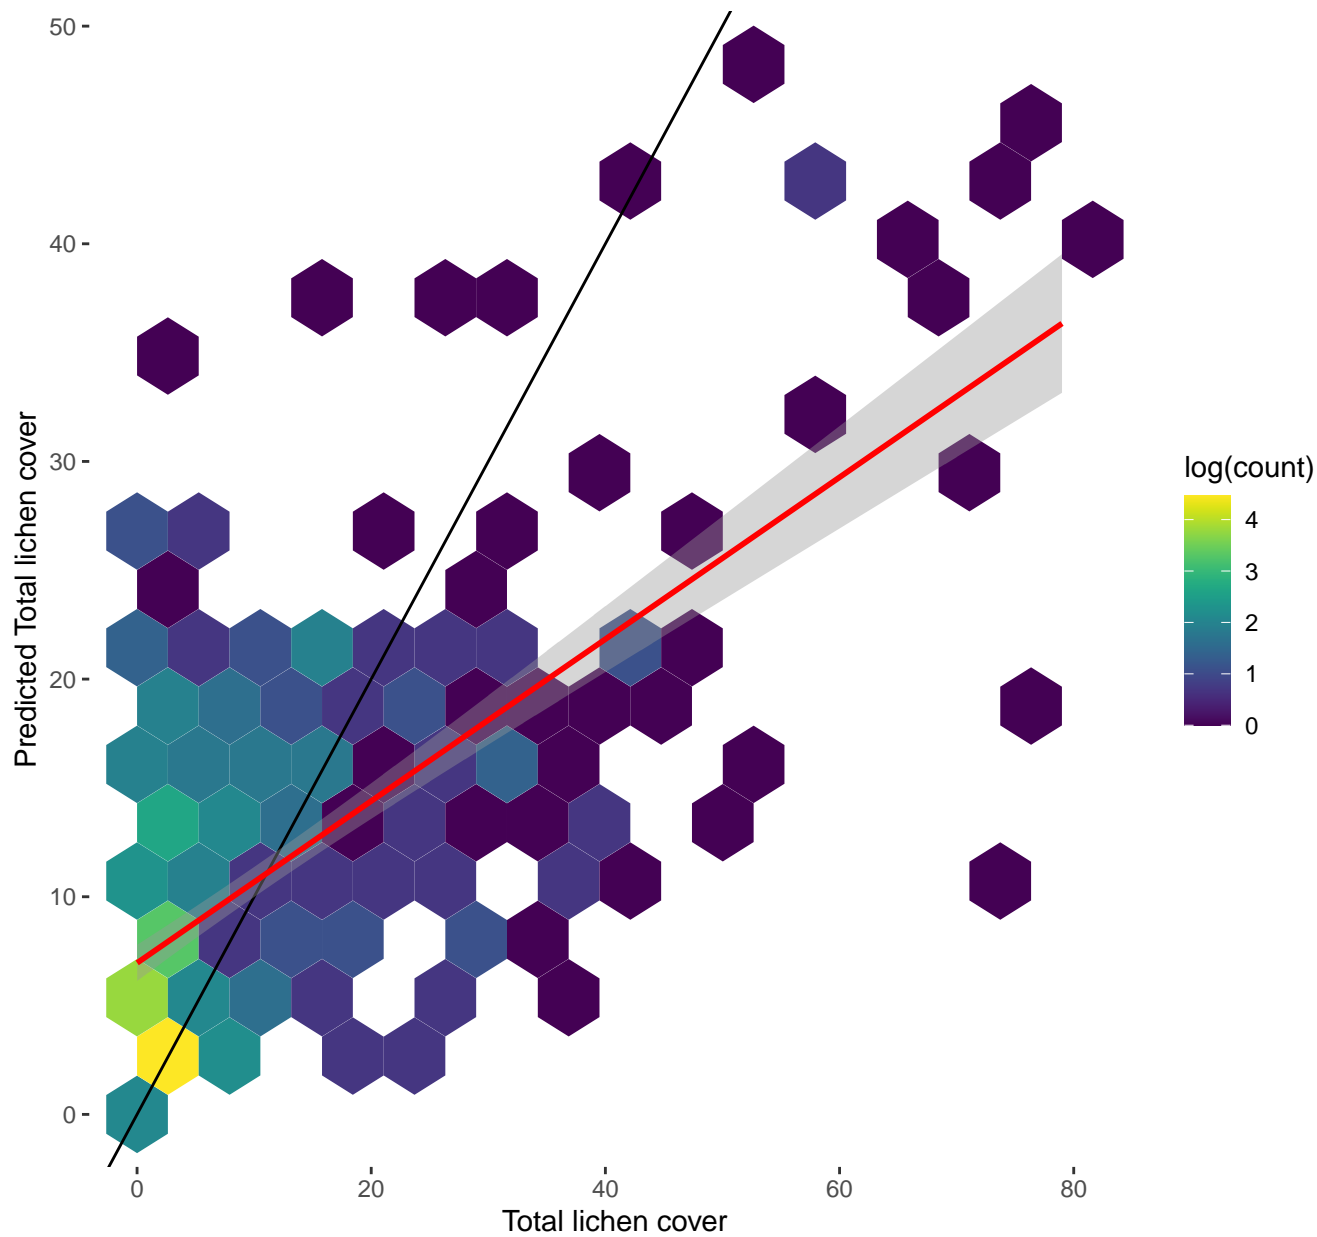

Crustose lichen cover Ranger observed vs predicted

R²= 0

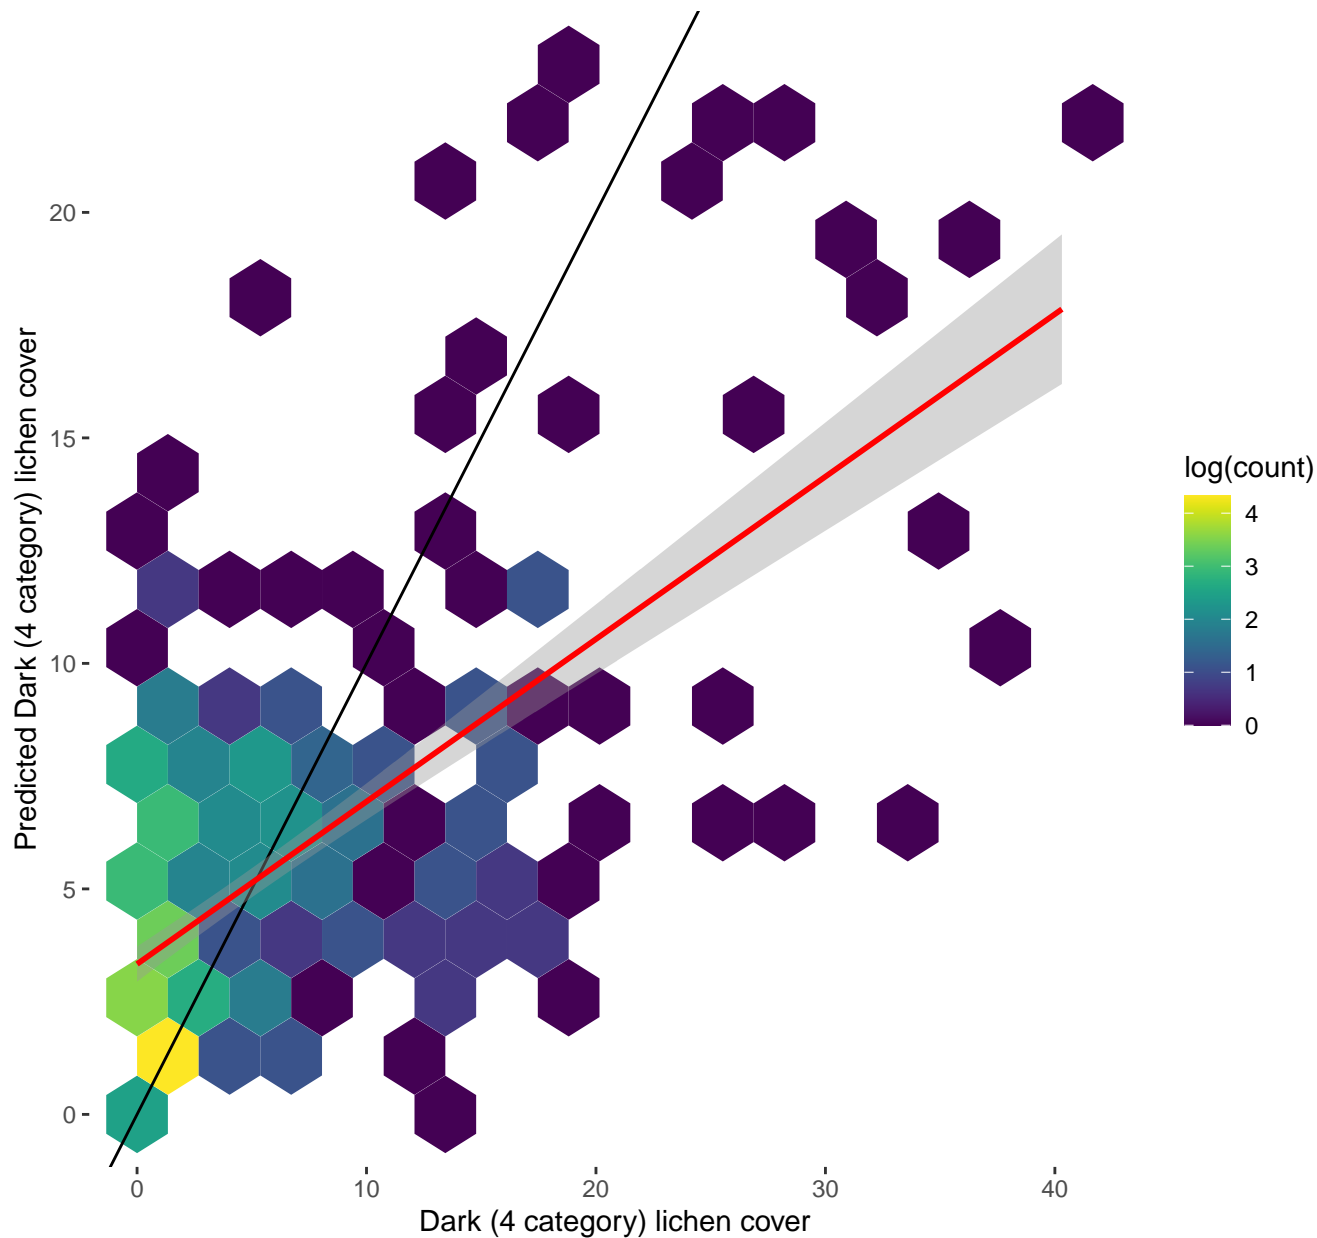

Total lichen cover Ranger observed vs predicted

R²= 0.41

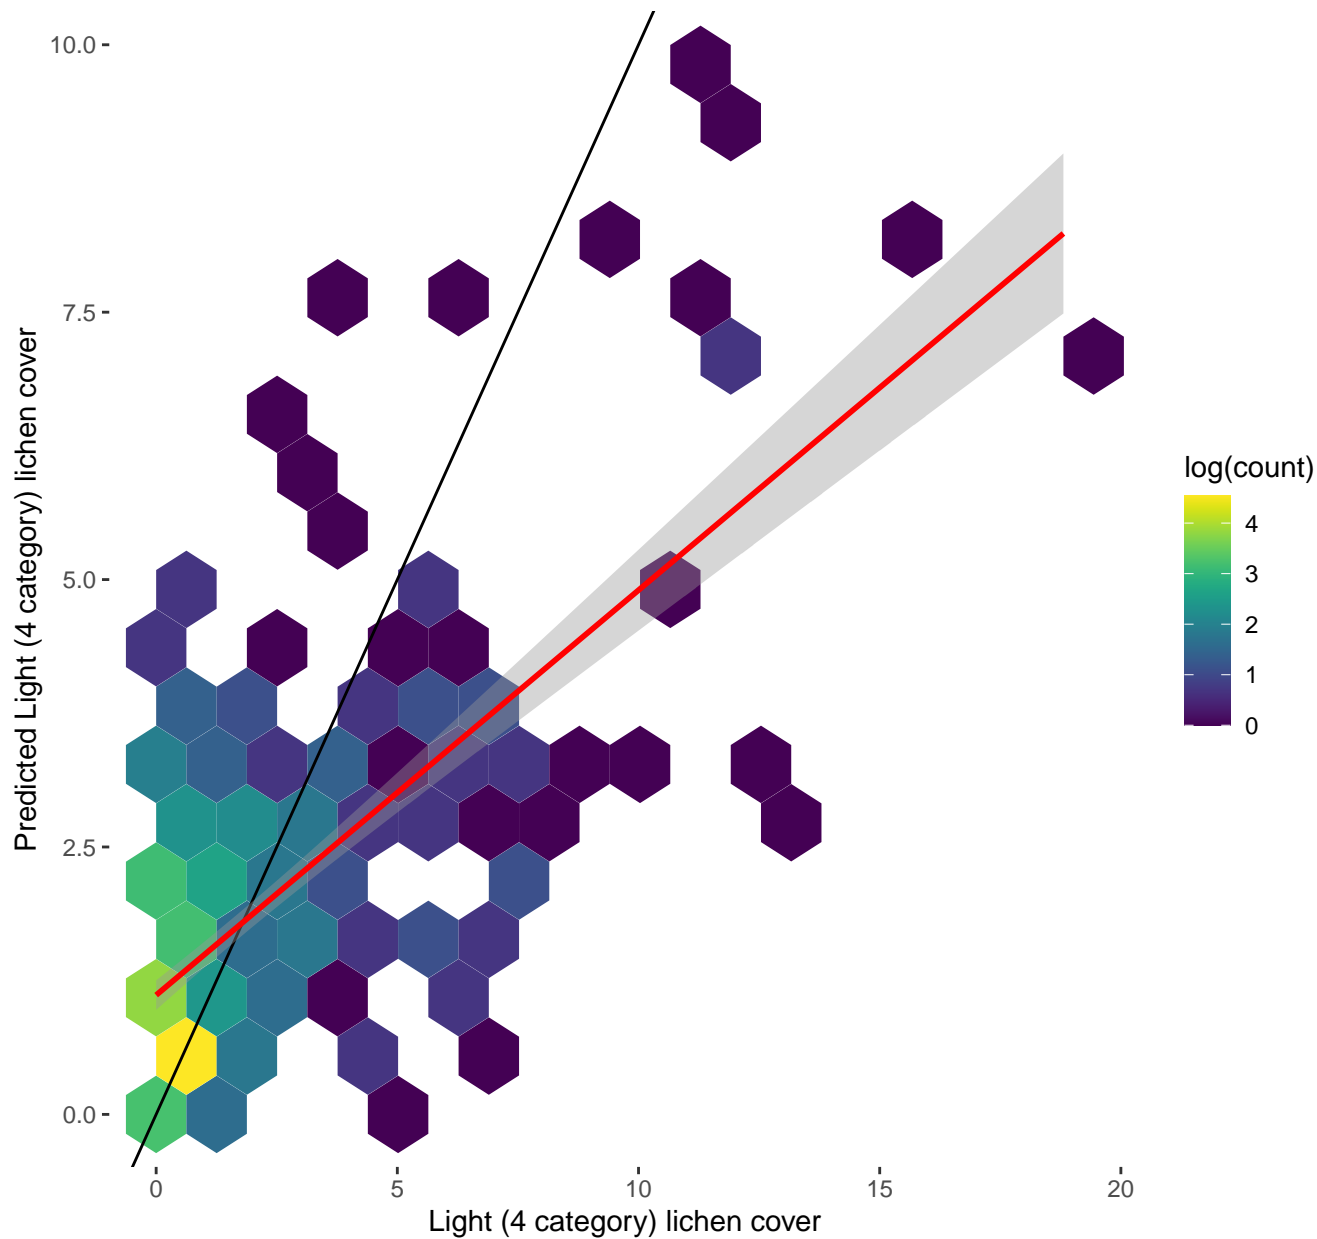

Dark (4 category) lichen cover Ranger observed vs predicted

R2= 0.39

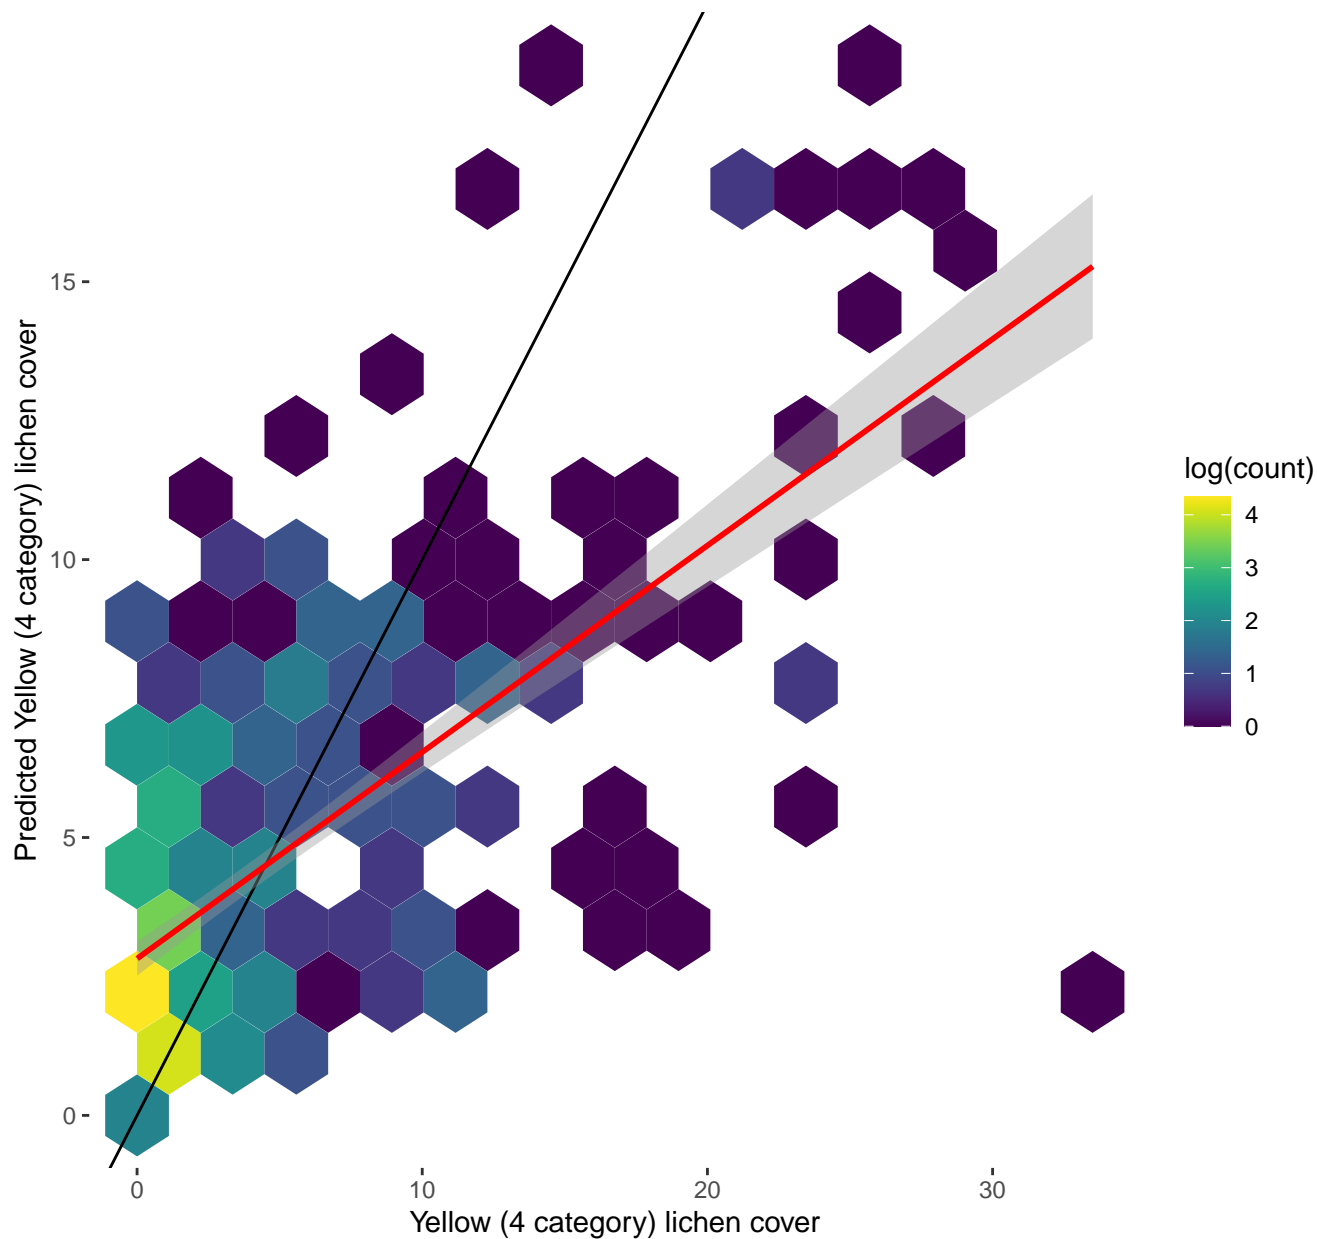

Light (4 category) lichen cover Ranger observed vs predicted

R2= 0.44

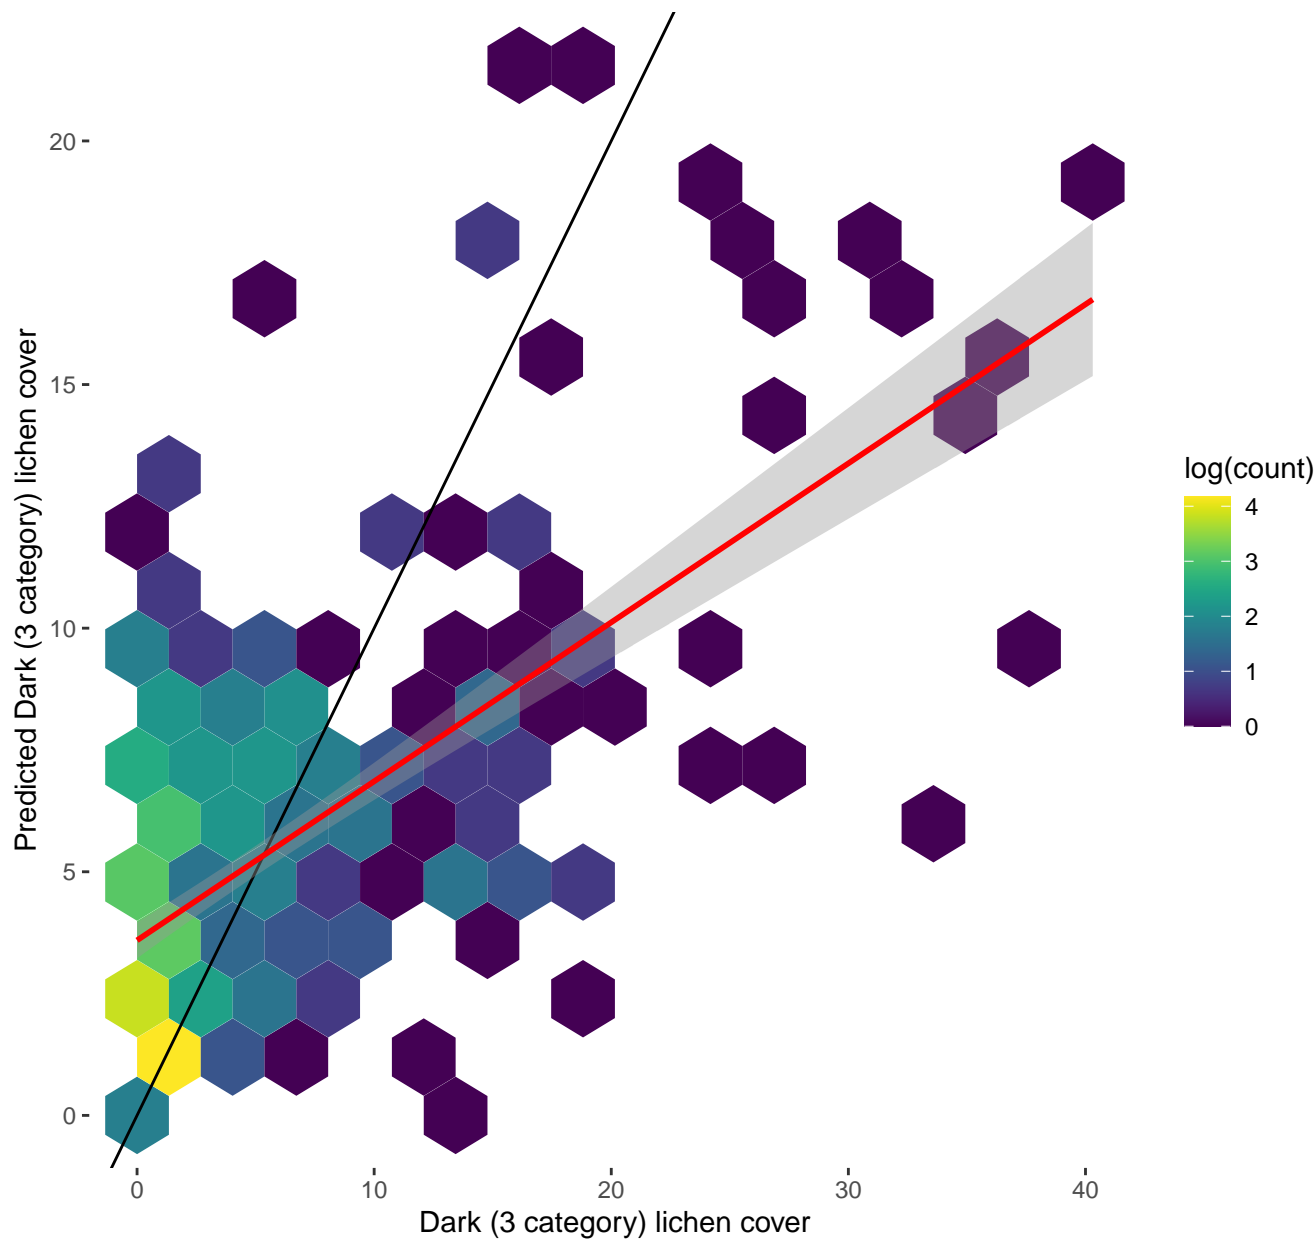

Yellow (4 category) lichen cover Ranger observed vs predicted

R2= 0.43

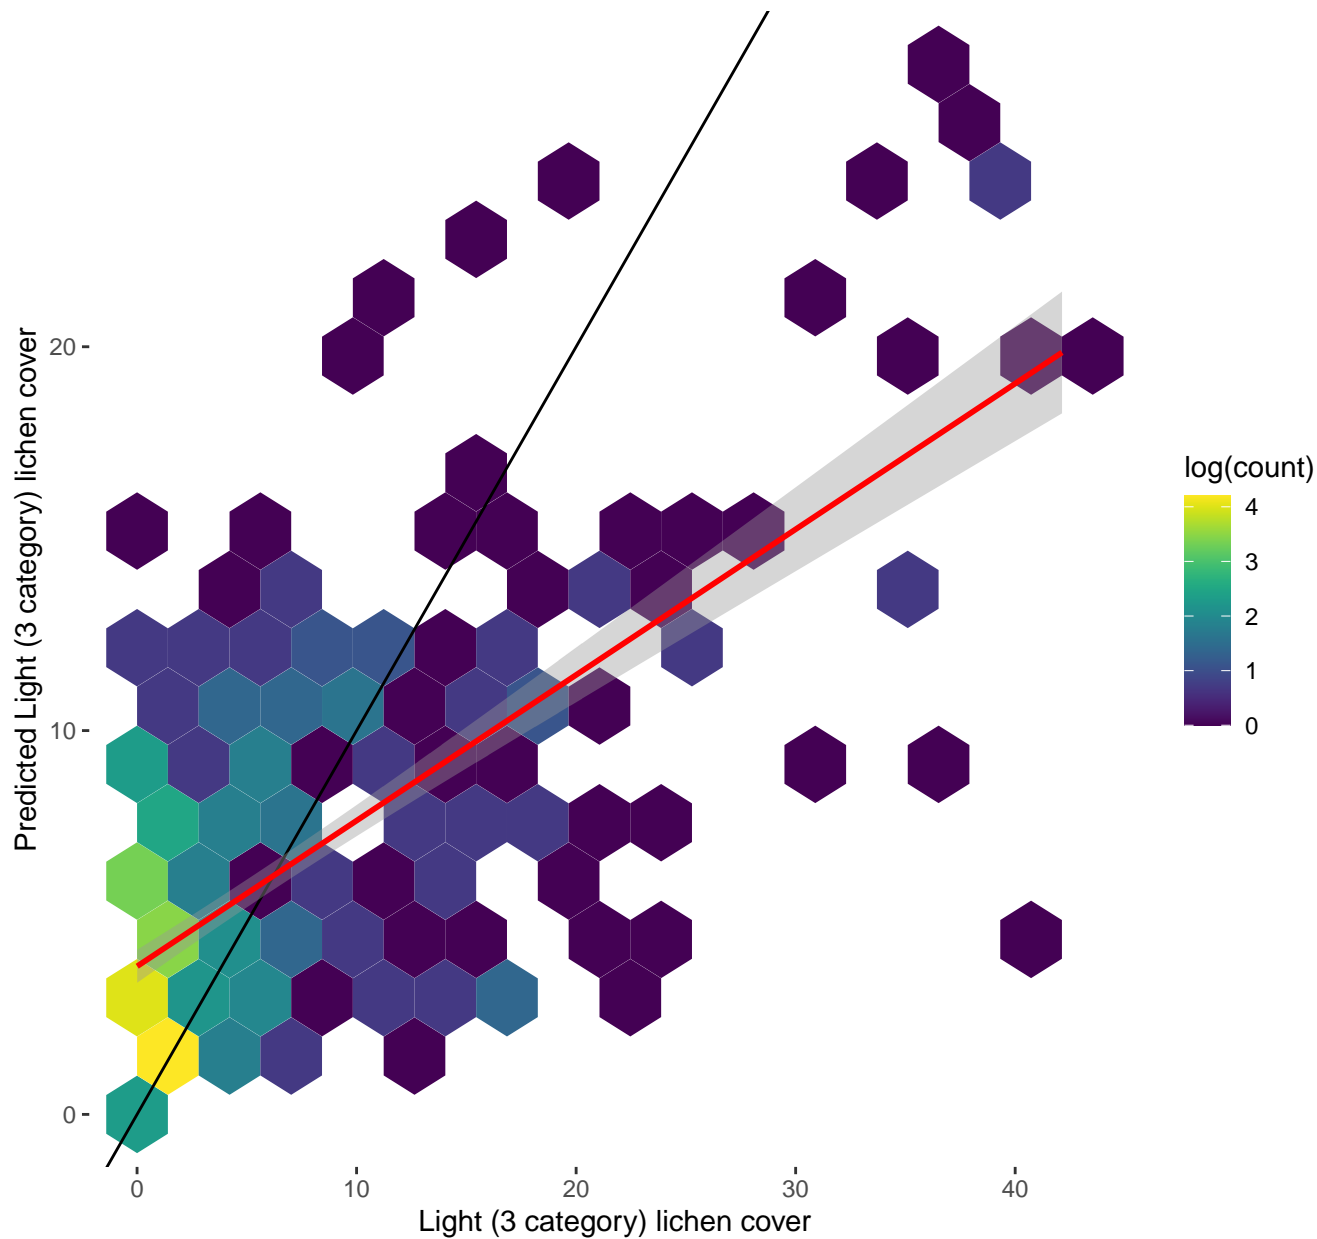

Dark (3 category) lichen cover Ranger observed vs predicted

R2= 0.36

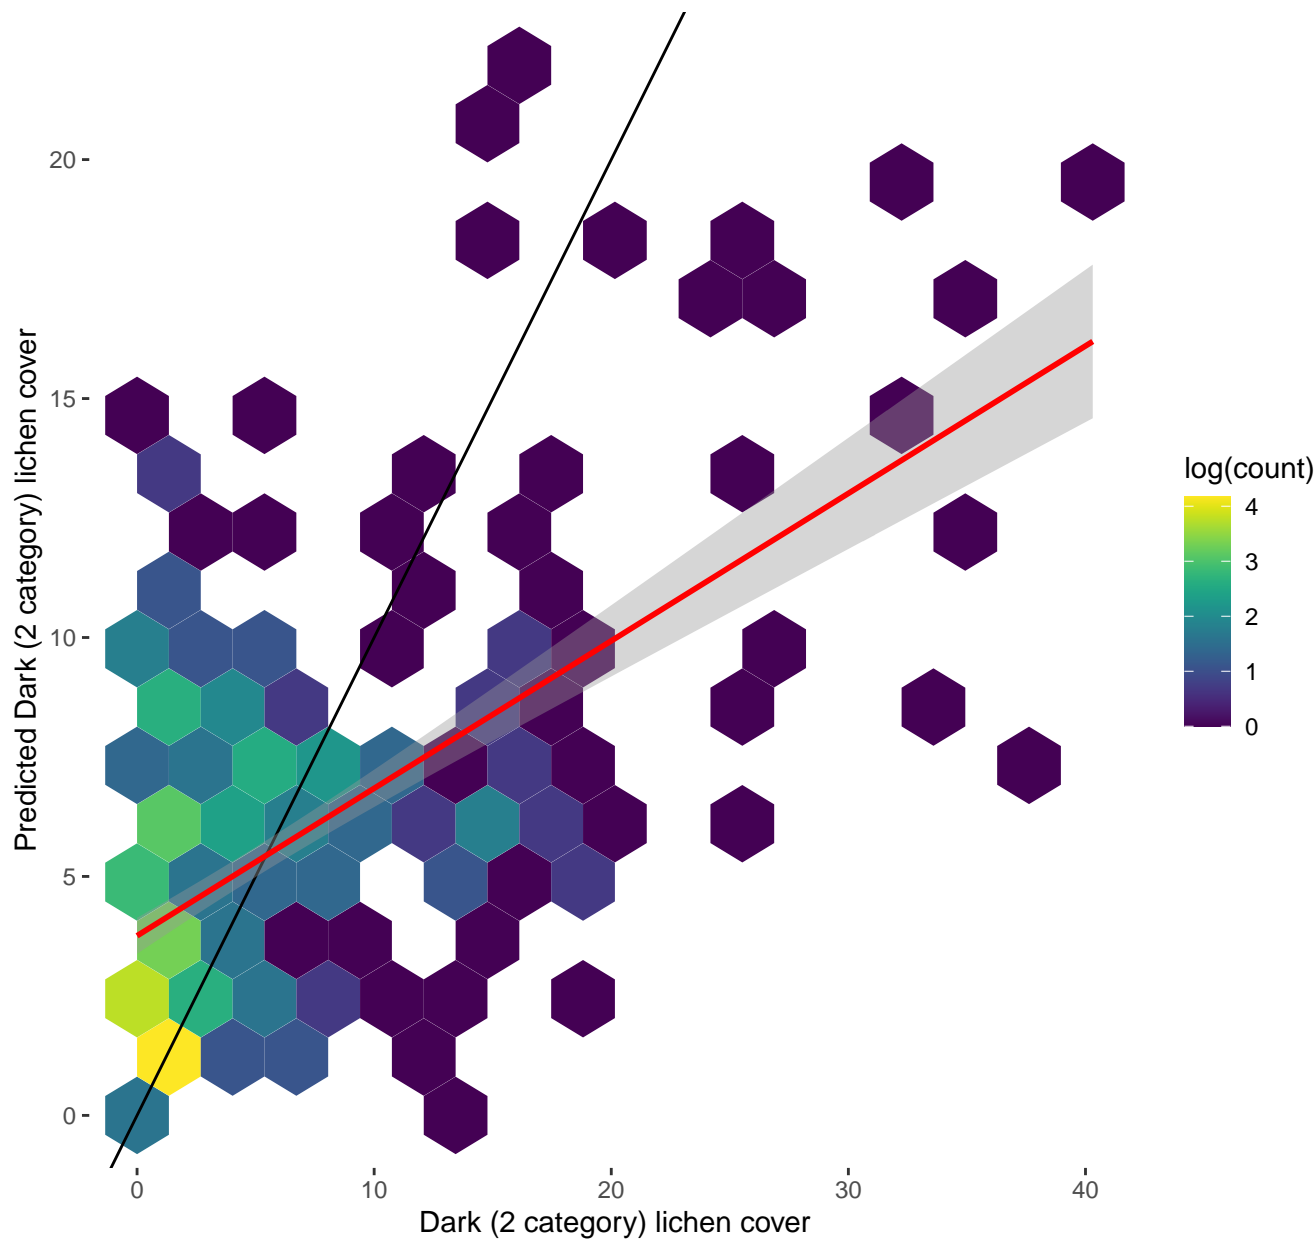

Light (3 category) lichen cover Ranger observed vs predicted

R2= 0.45

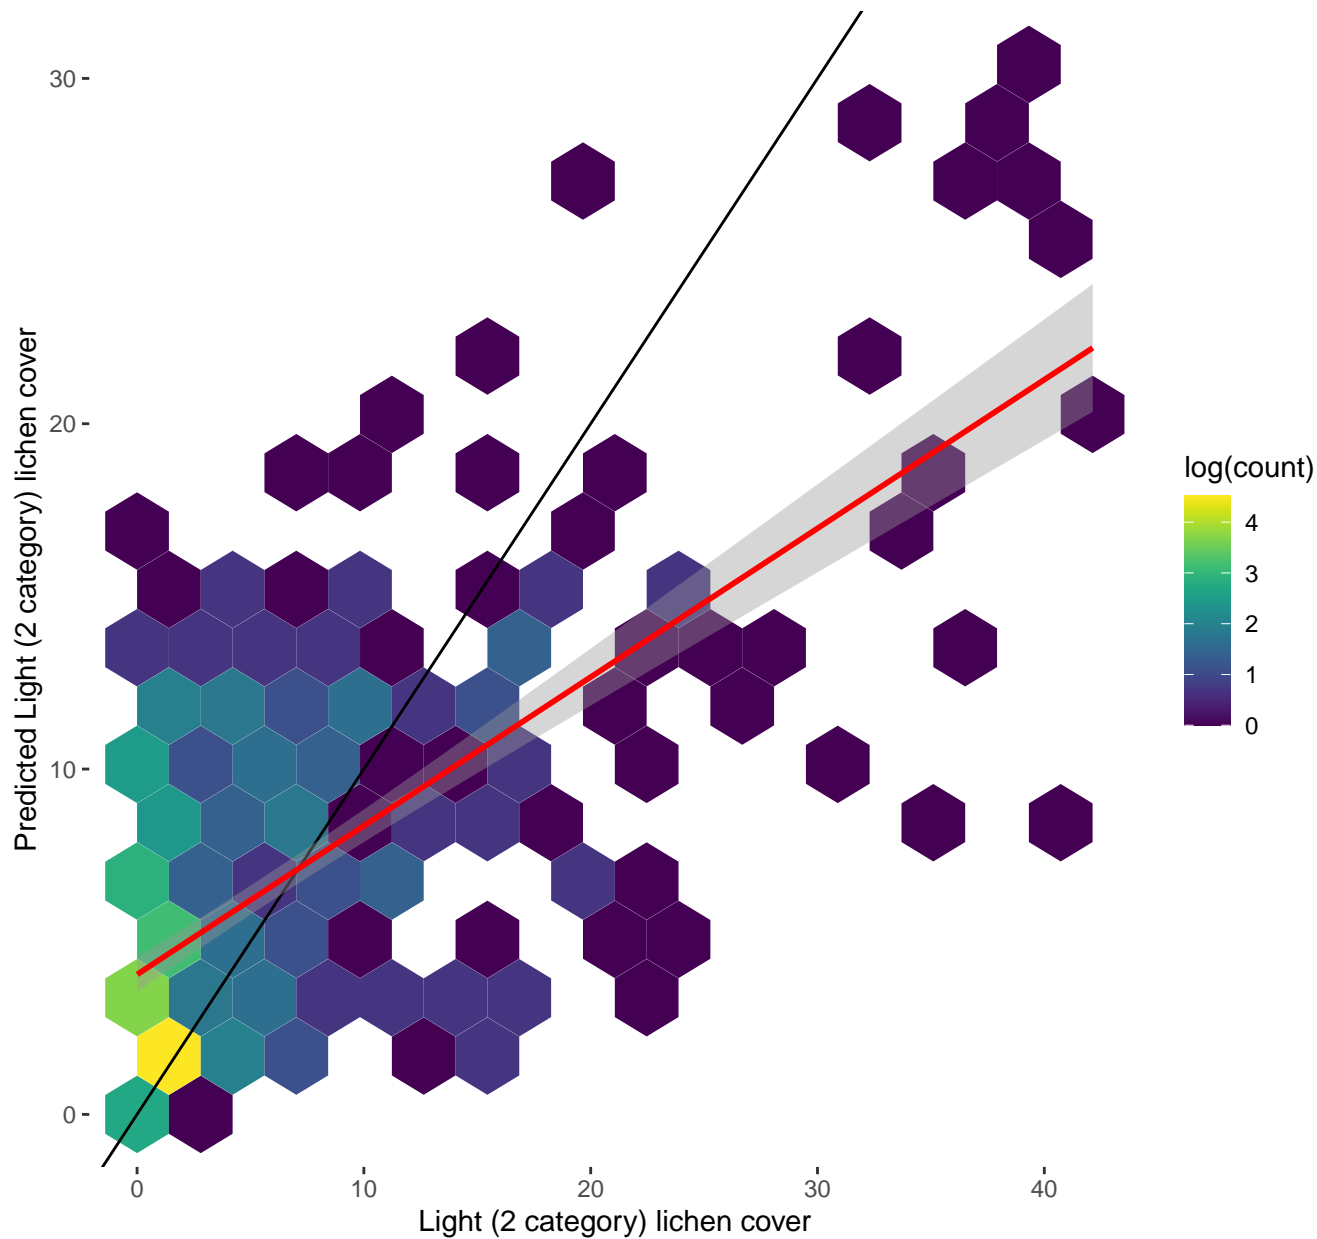

Dark (2 category) lichen cover Ranger observed vs predicted

R2= 0.33

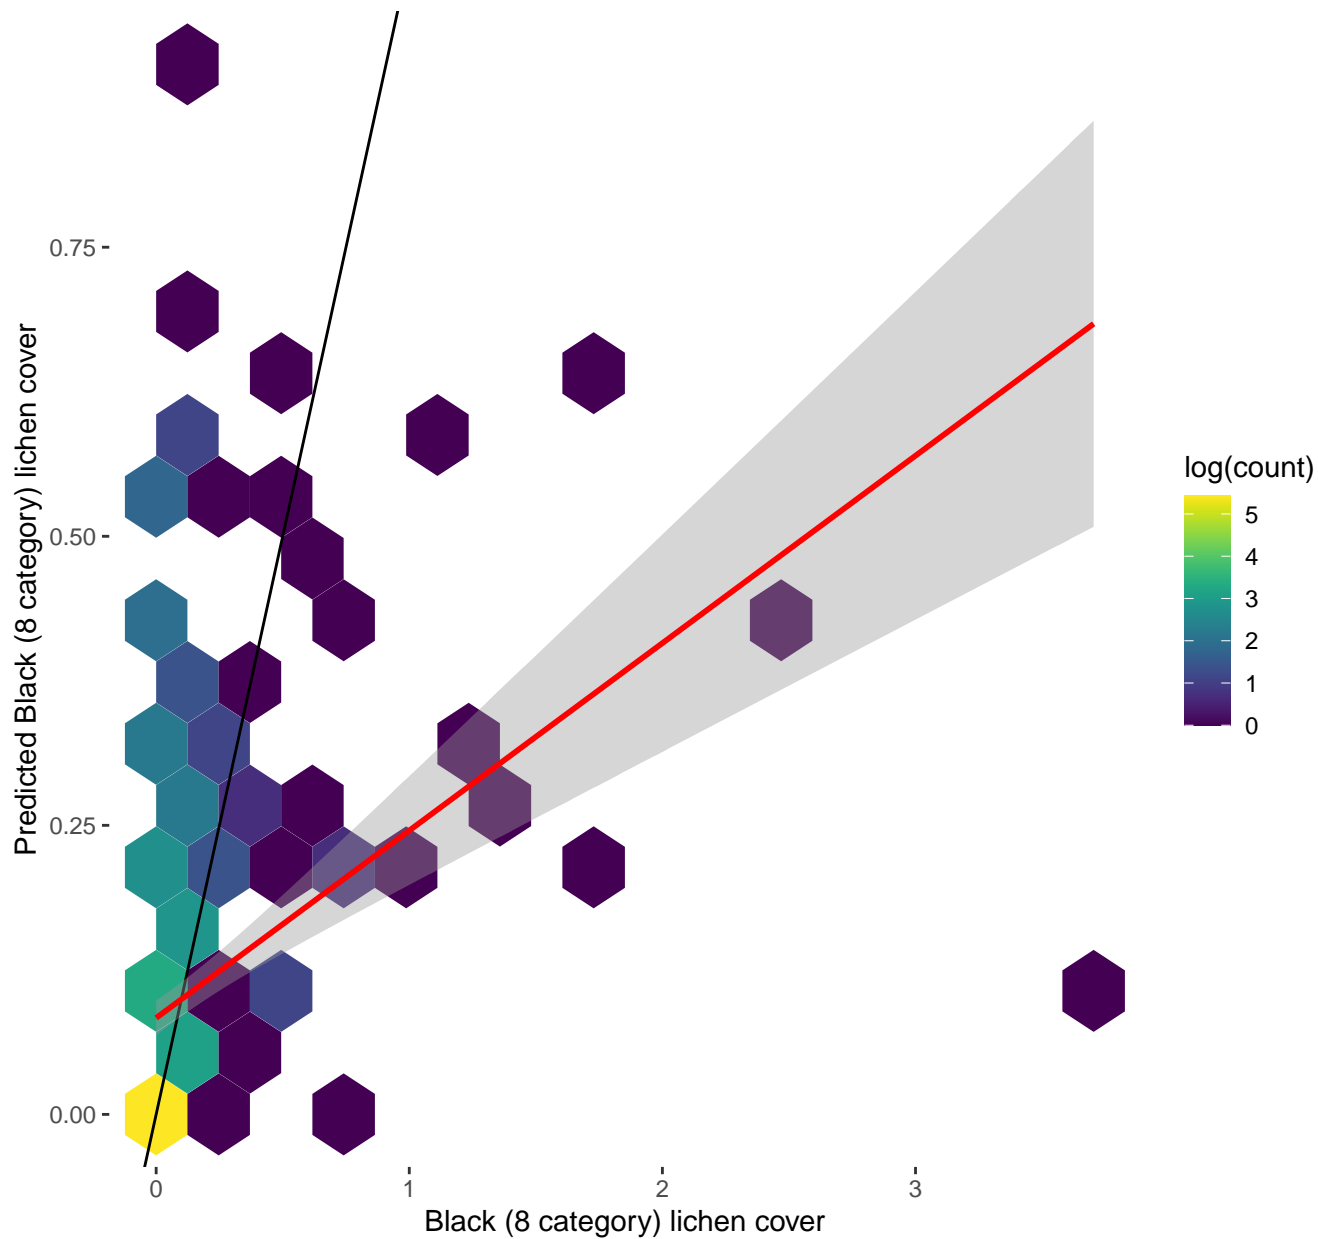

Light (2 category) lichen cover Ranger observed vs predicted

R2= 0.44

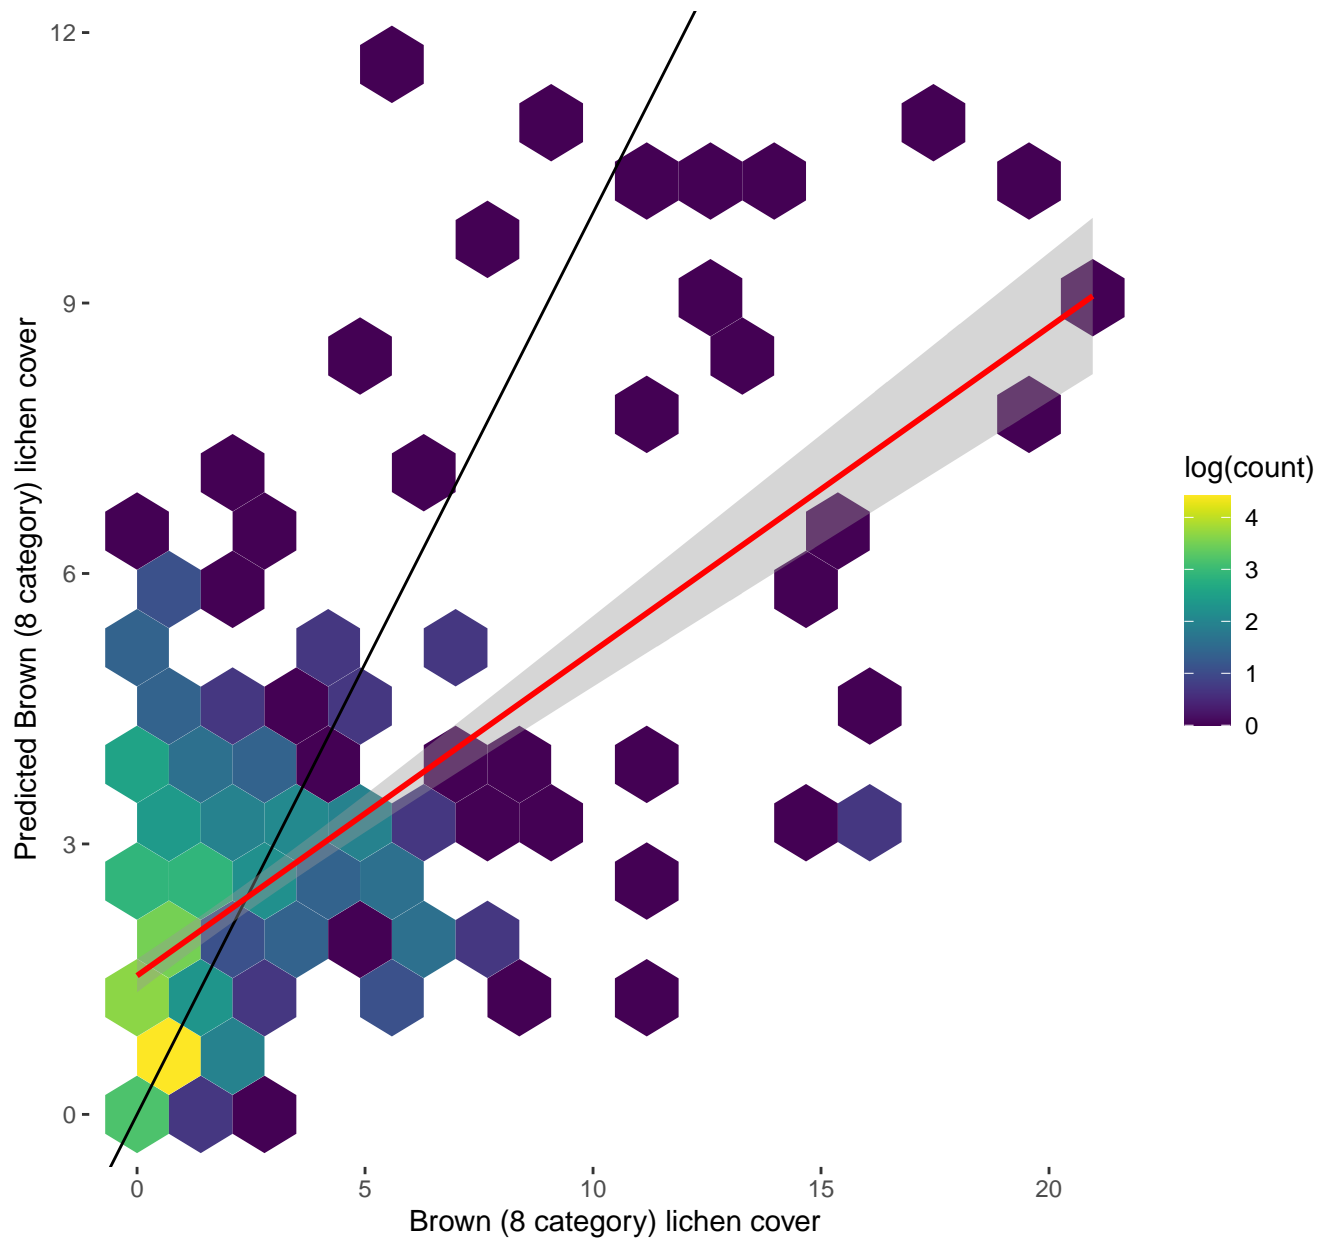

Black (8 category) lichen cover Ranger observed vs predicted

R2= 0.1

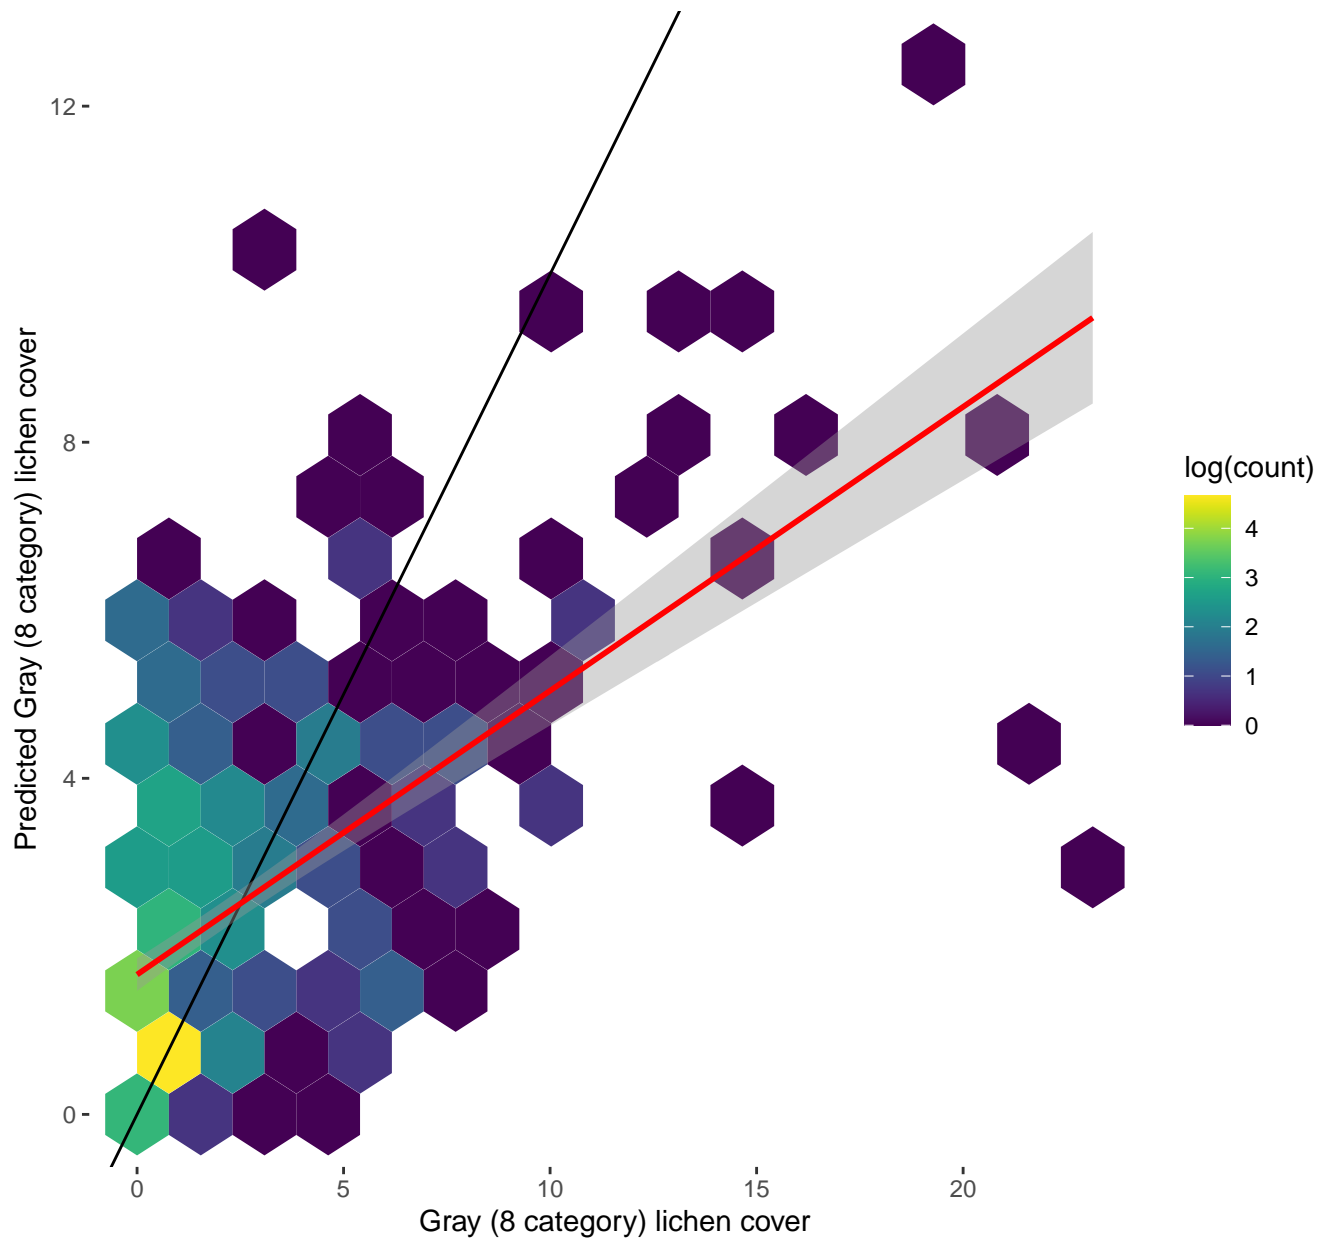

Brown (8 category) lichen cover Ranger observed vs predicted

R2= 0.39

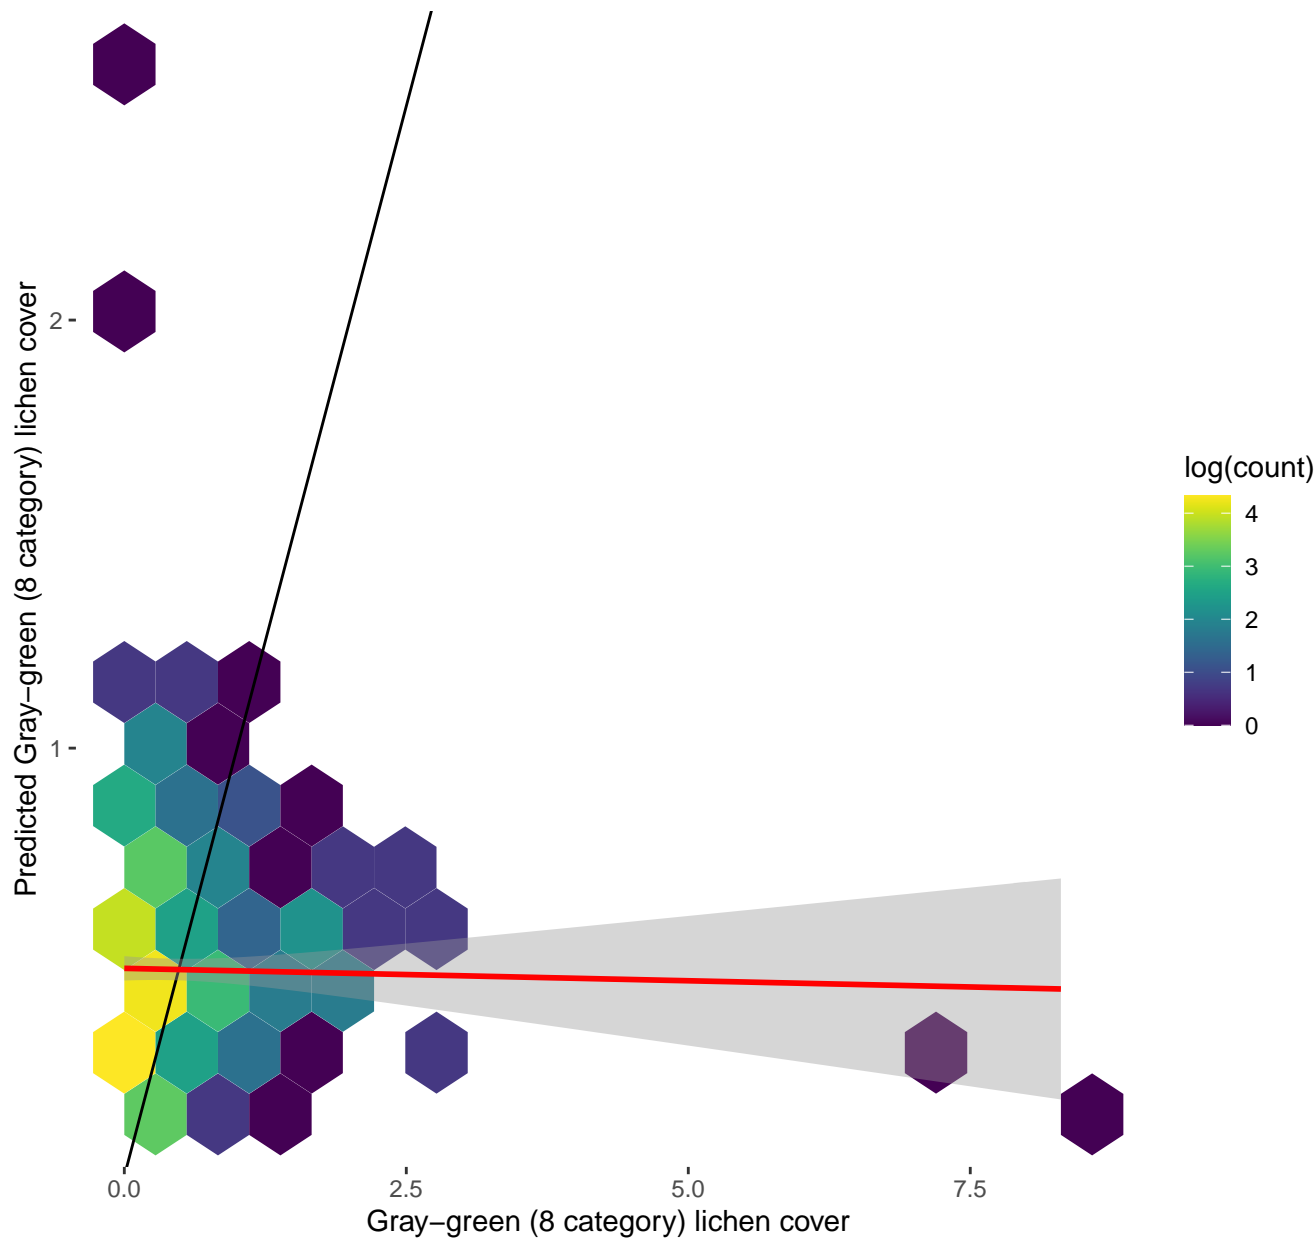

Gray (8 category) lichen cover Ranger observed vs predicted

R2= 0.34

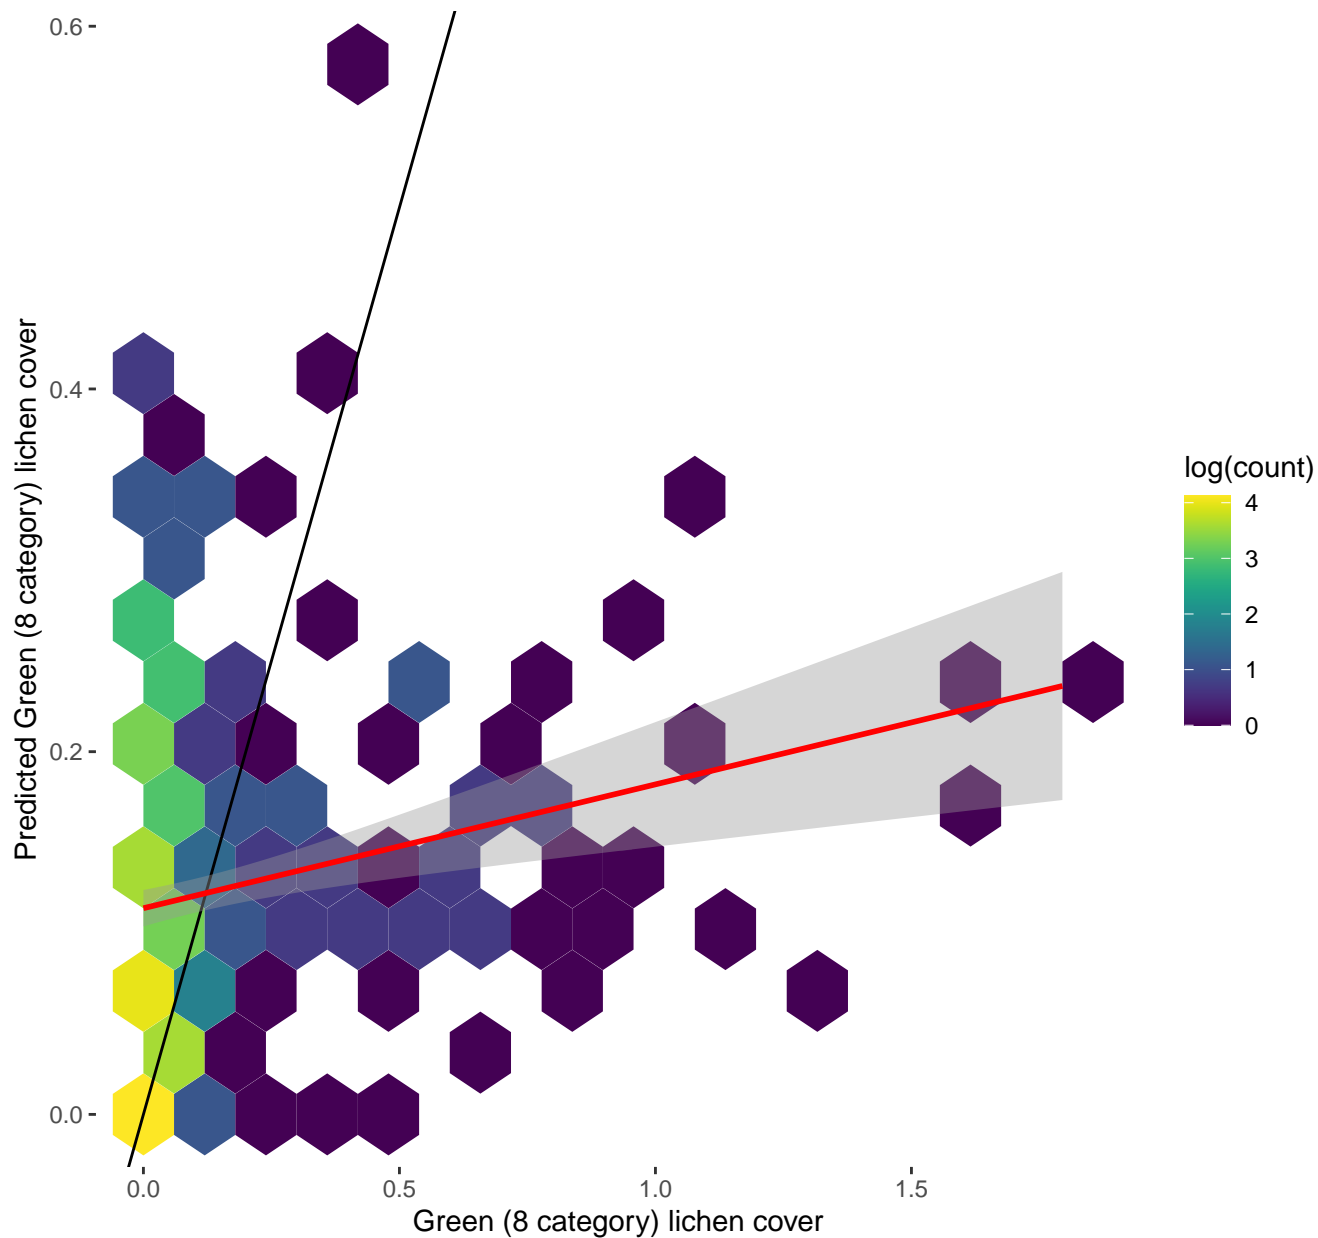

Gray-green (8 category) lichen cover Ranger observed vs predicted

R²= 0

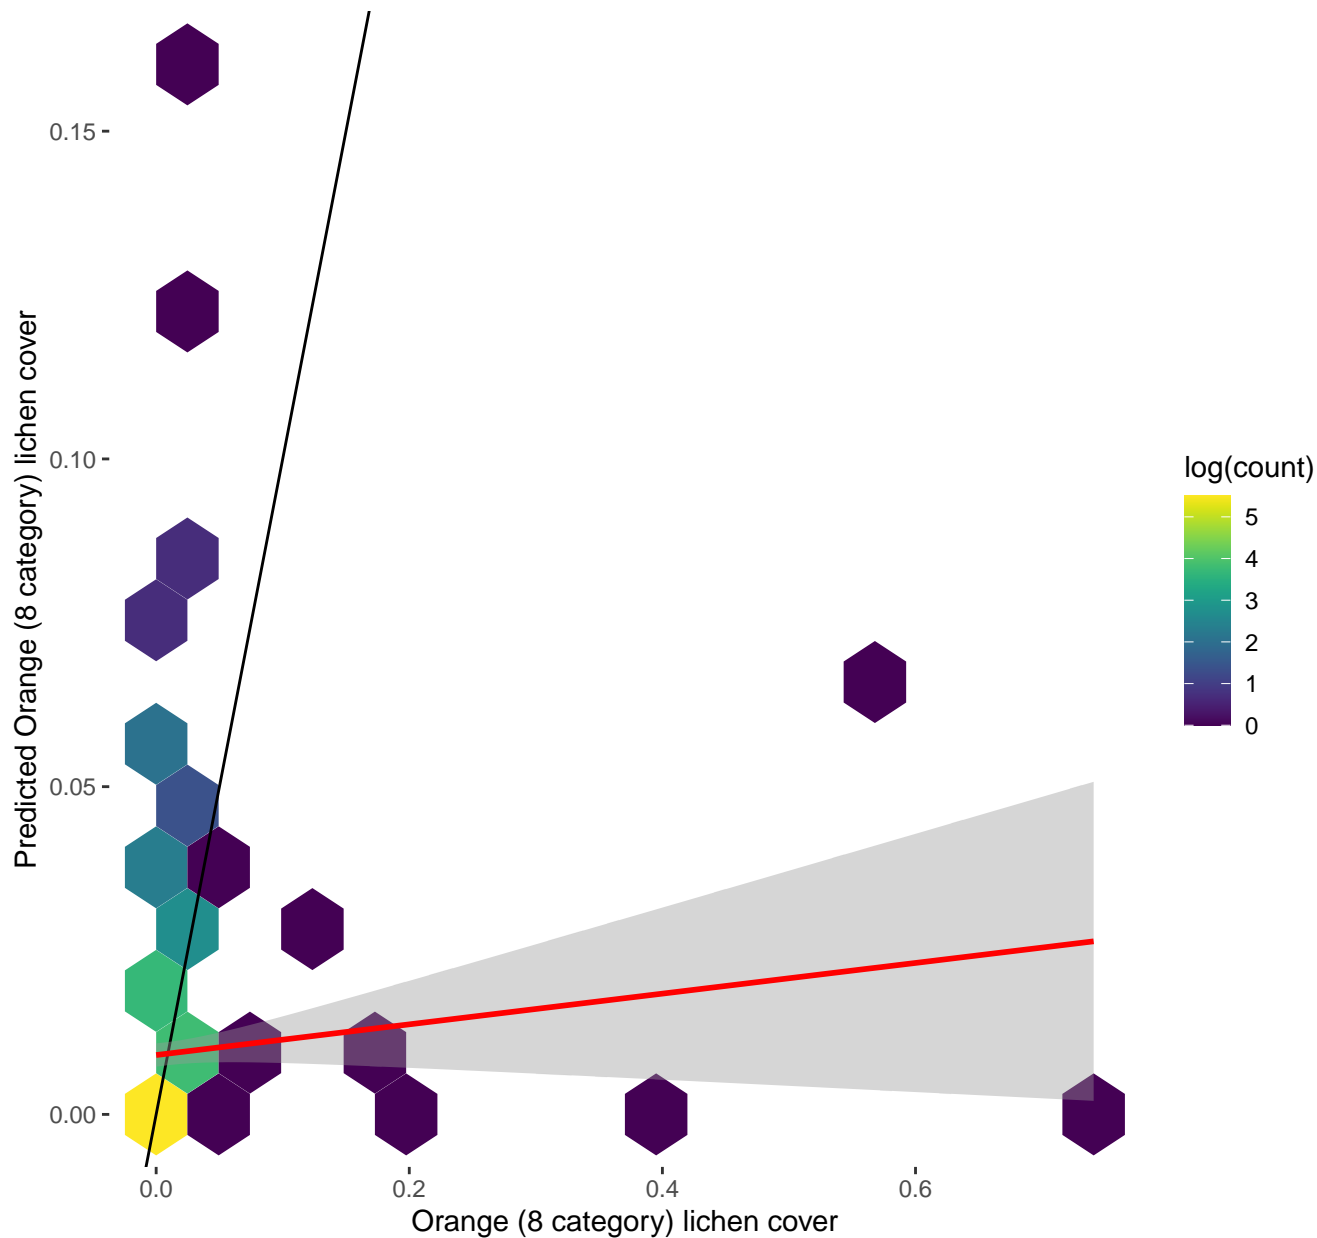

Green (8 category) lichen cover Ranger observed vs predicted

R²= 0.03

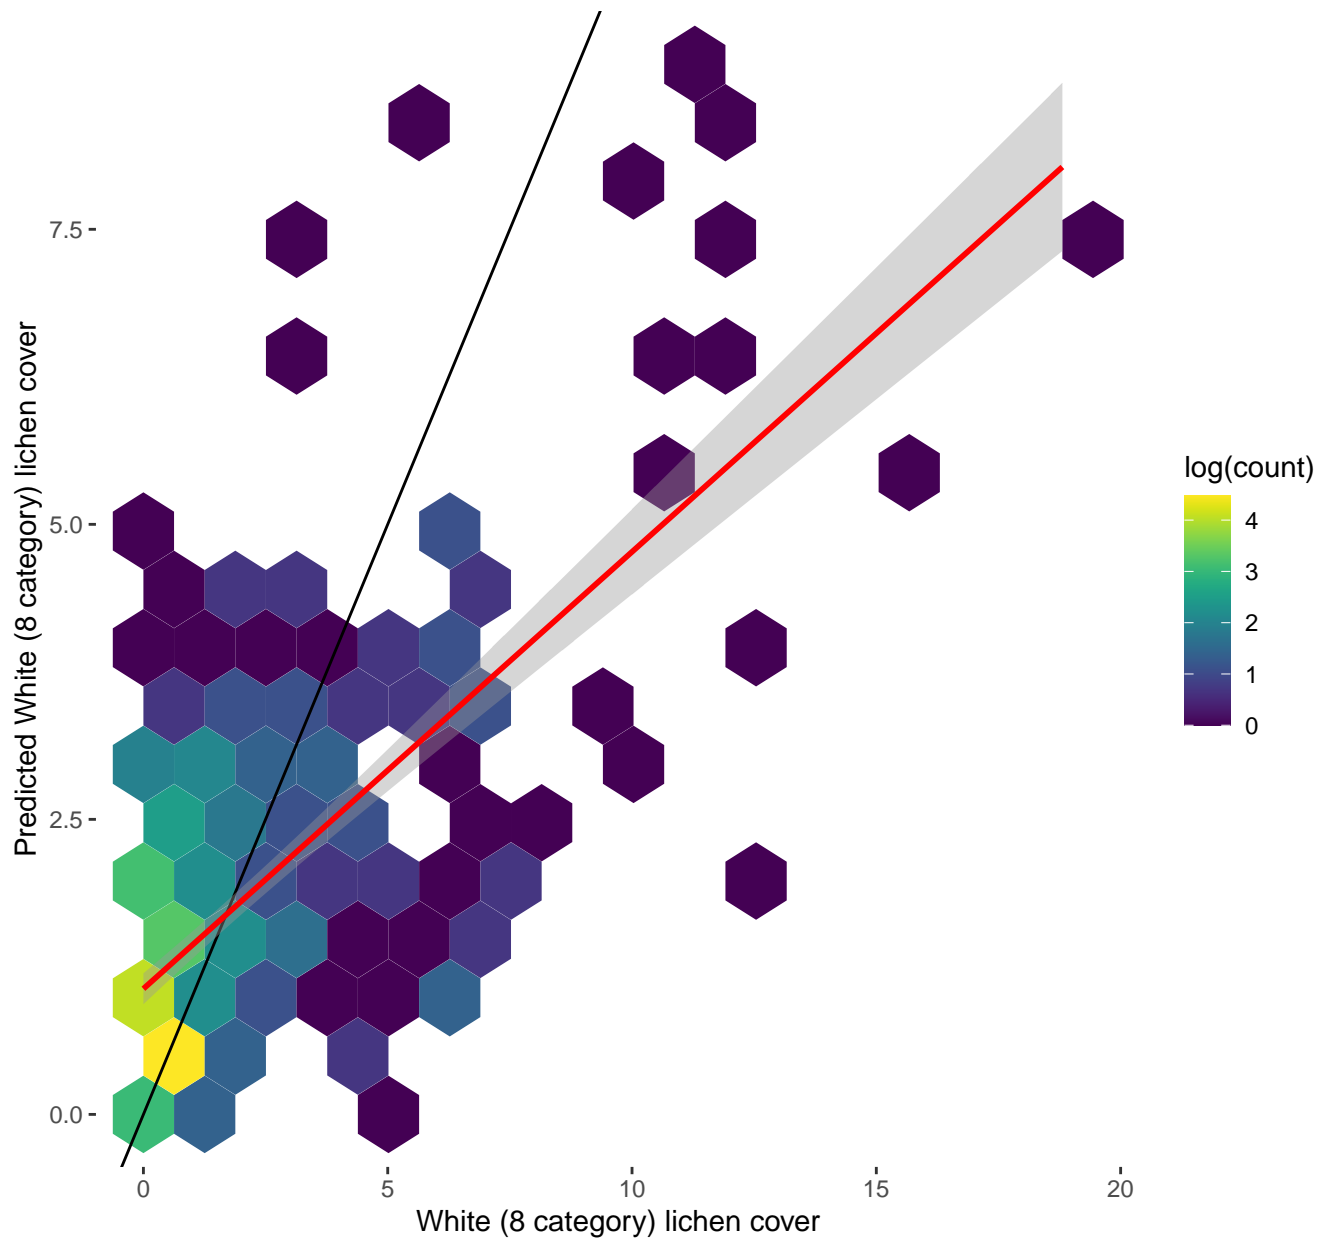

Orange (8 category) lichen cover Ranger observed vs predicted

R2= 0.01

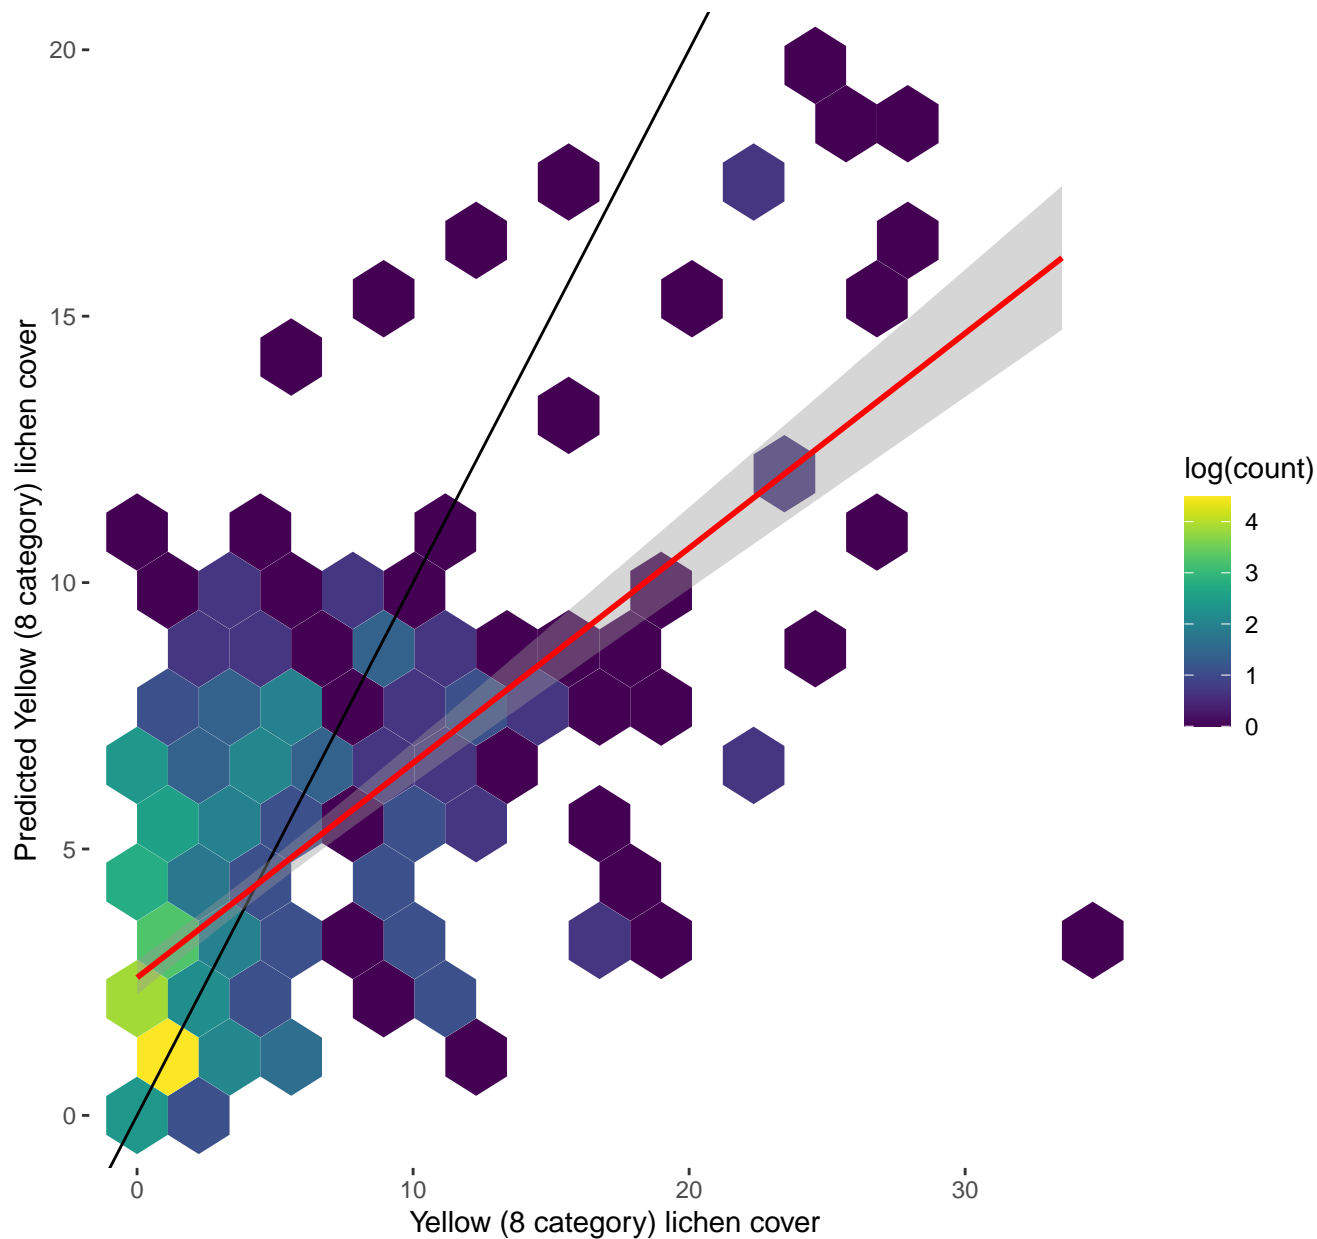

White (8 category) lichen cover Ranger observed vs predicted

R²= 0.45

Yellow (8 category) lichen cover Ranger observed vs predicted

R2= 0.45

Lichen volume Ranger observed vs predicted

R²= 0.47
